

SINTRYX

- All-in-one marketplace
- Newcomers
- Experienced Investors

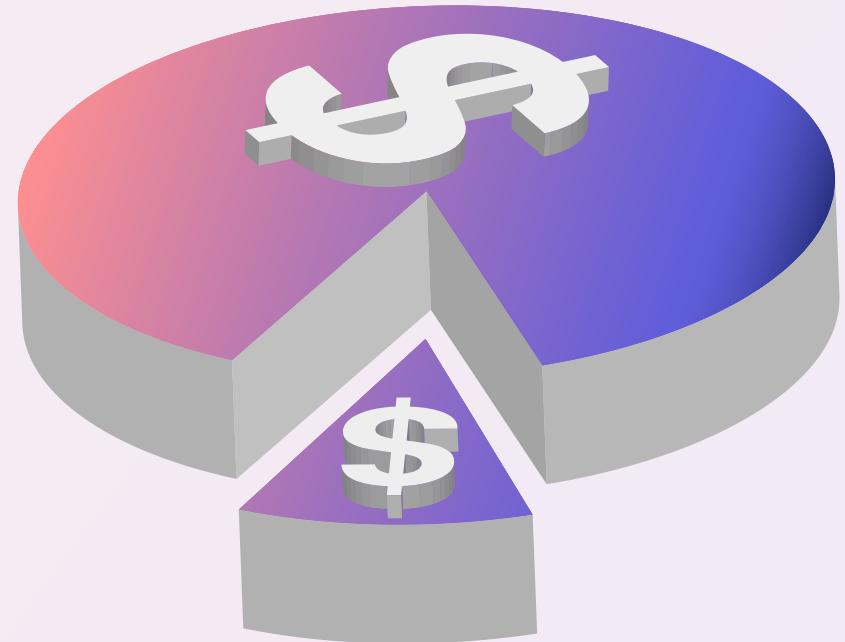

We allow 4 unique things:

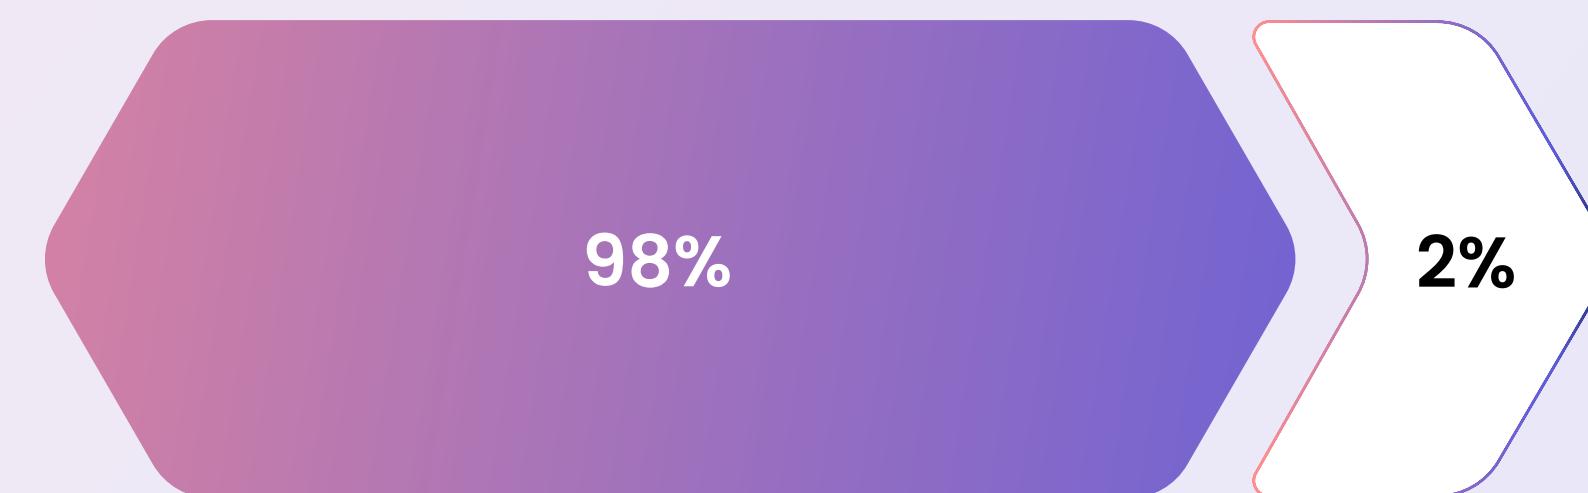

Reward allocation on  
time and amount

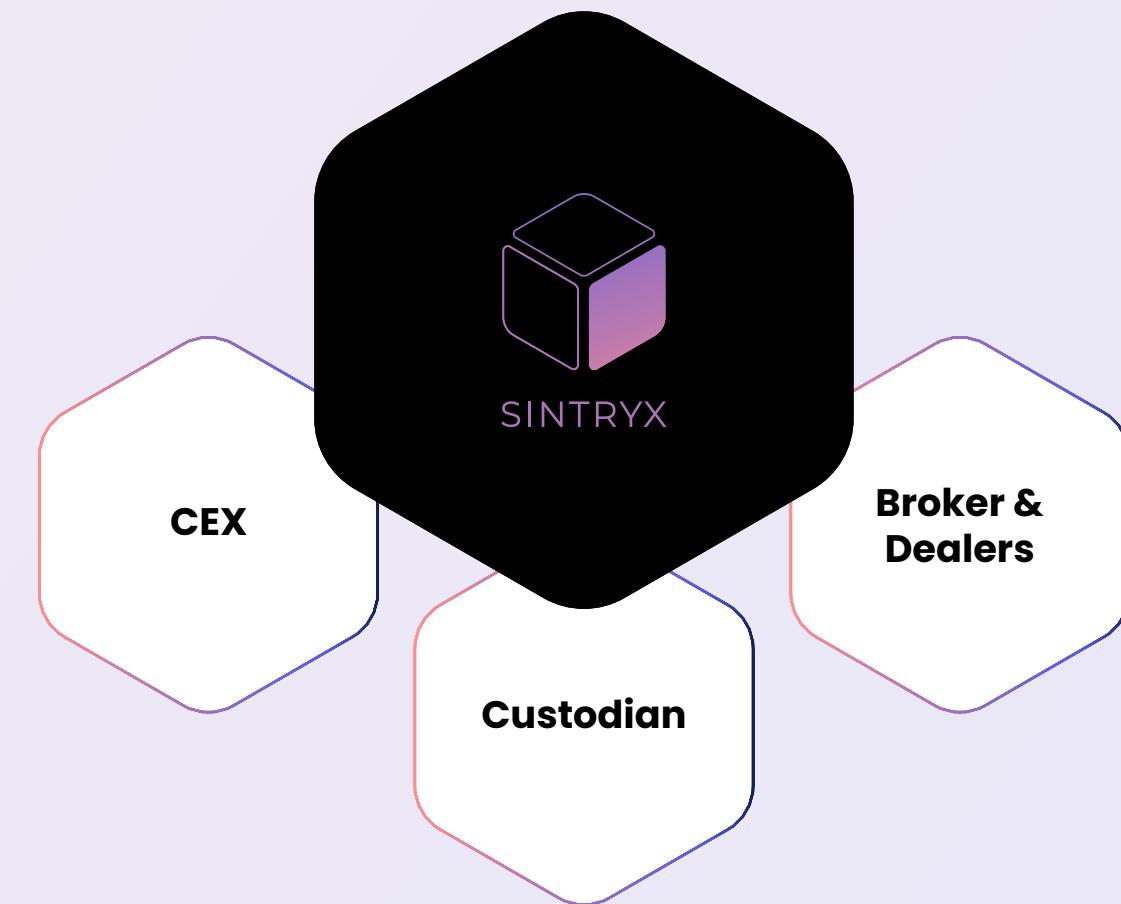

Fractionalised dividends  
from high valued objects

Sentiment based  
object valuation

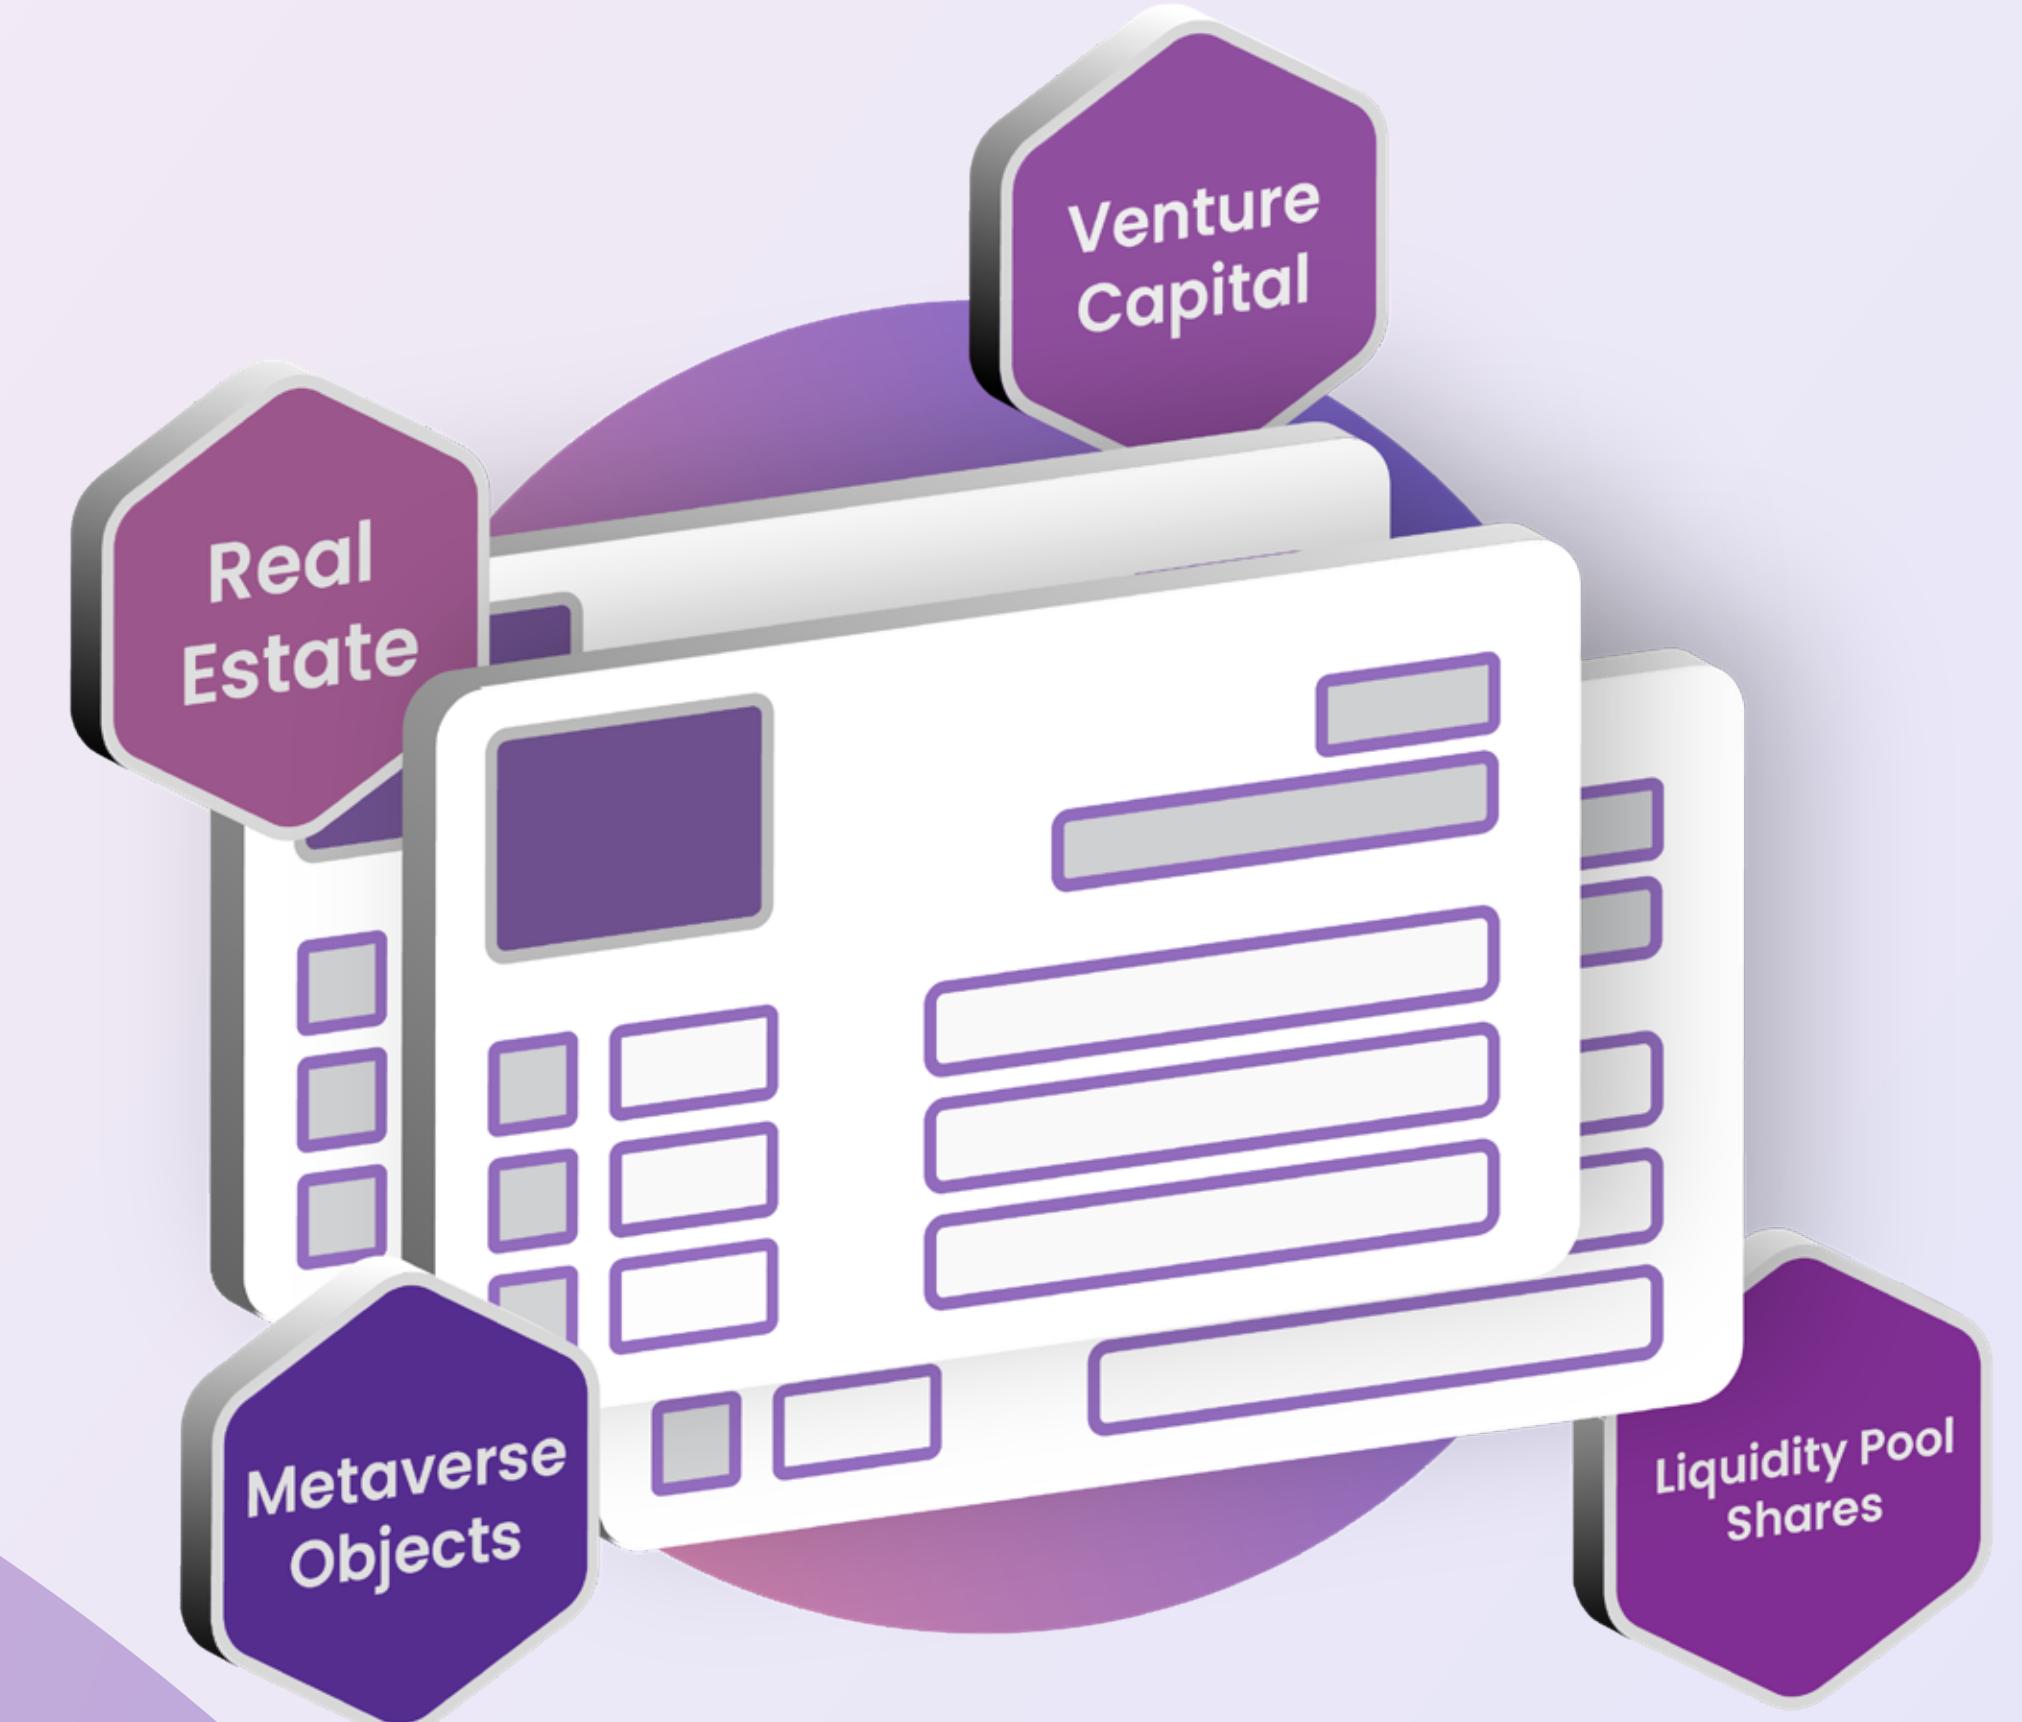

Regulation friendly liquidity  
pools for Tokenized Assets

## Sintryx accommodates investors to:

- Simplify finding unique investment opportunities
- Increase market participation
- Spread risk in a diverse portfolio
- Have ownership and control over digital- and real world asset investments

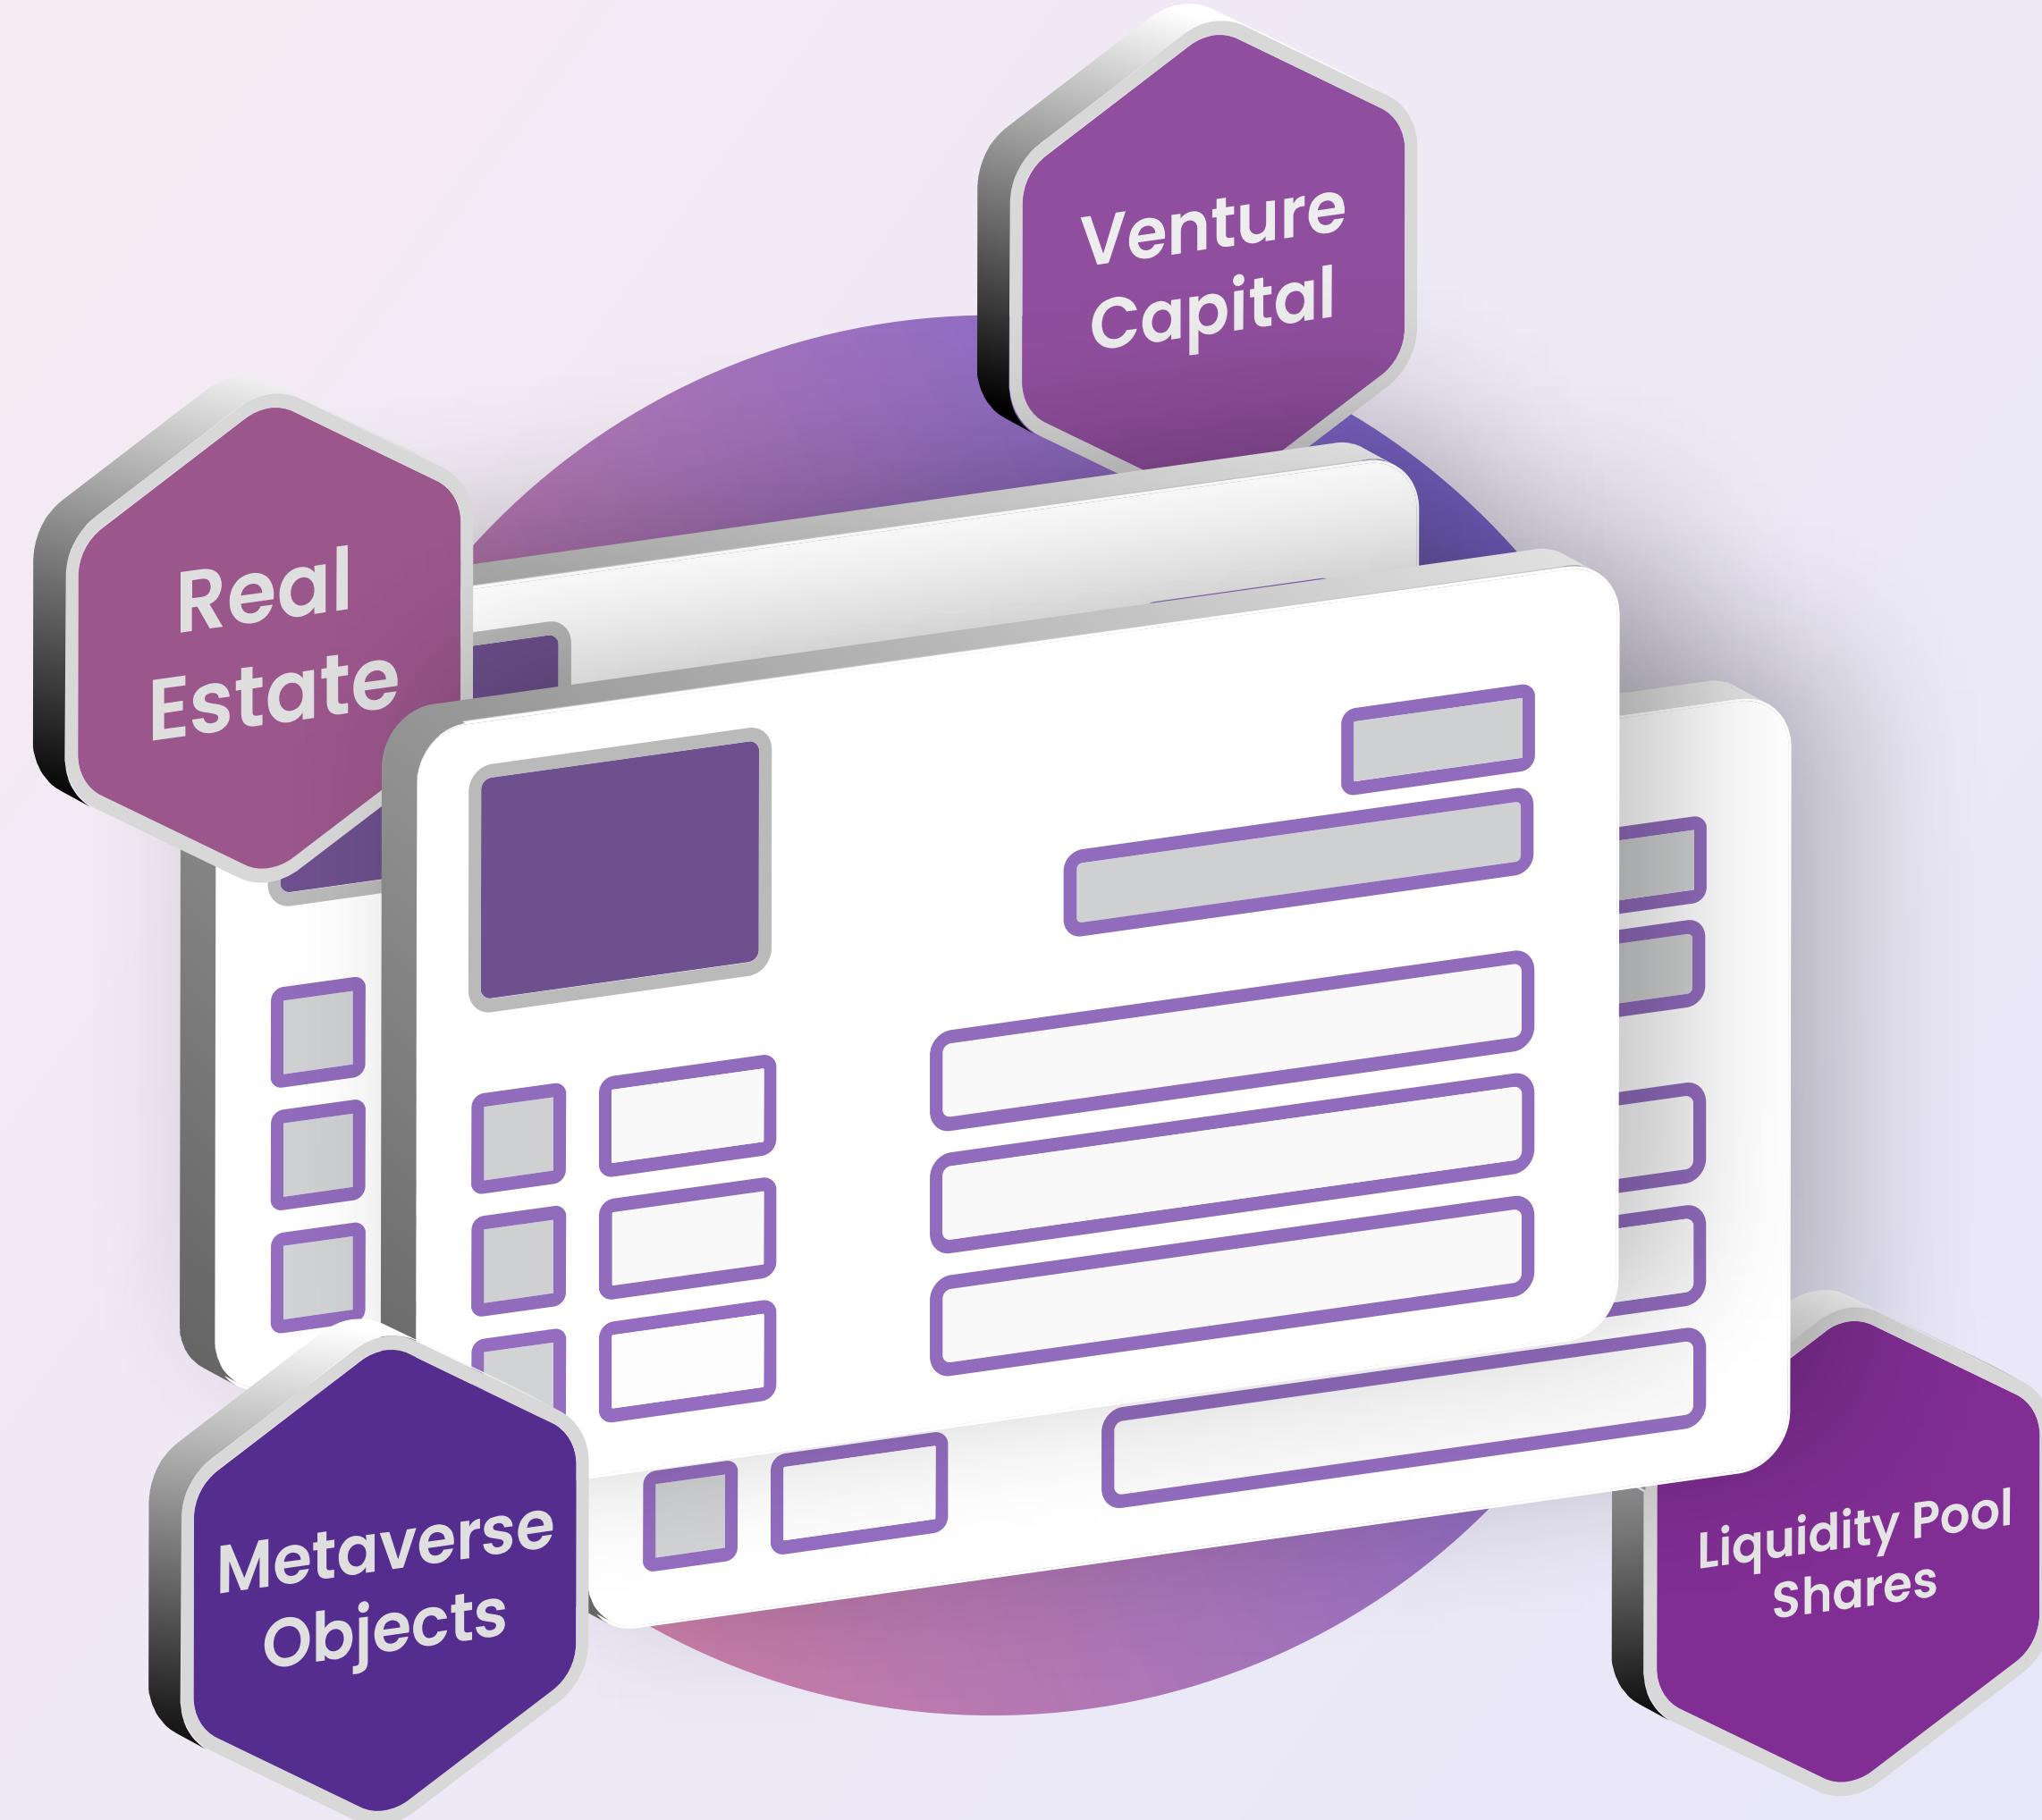

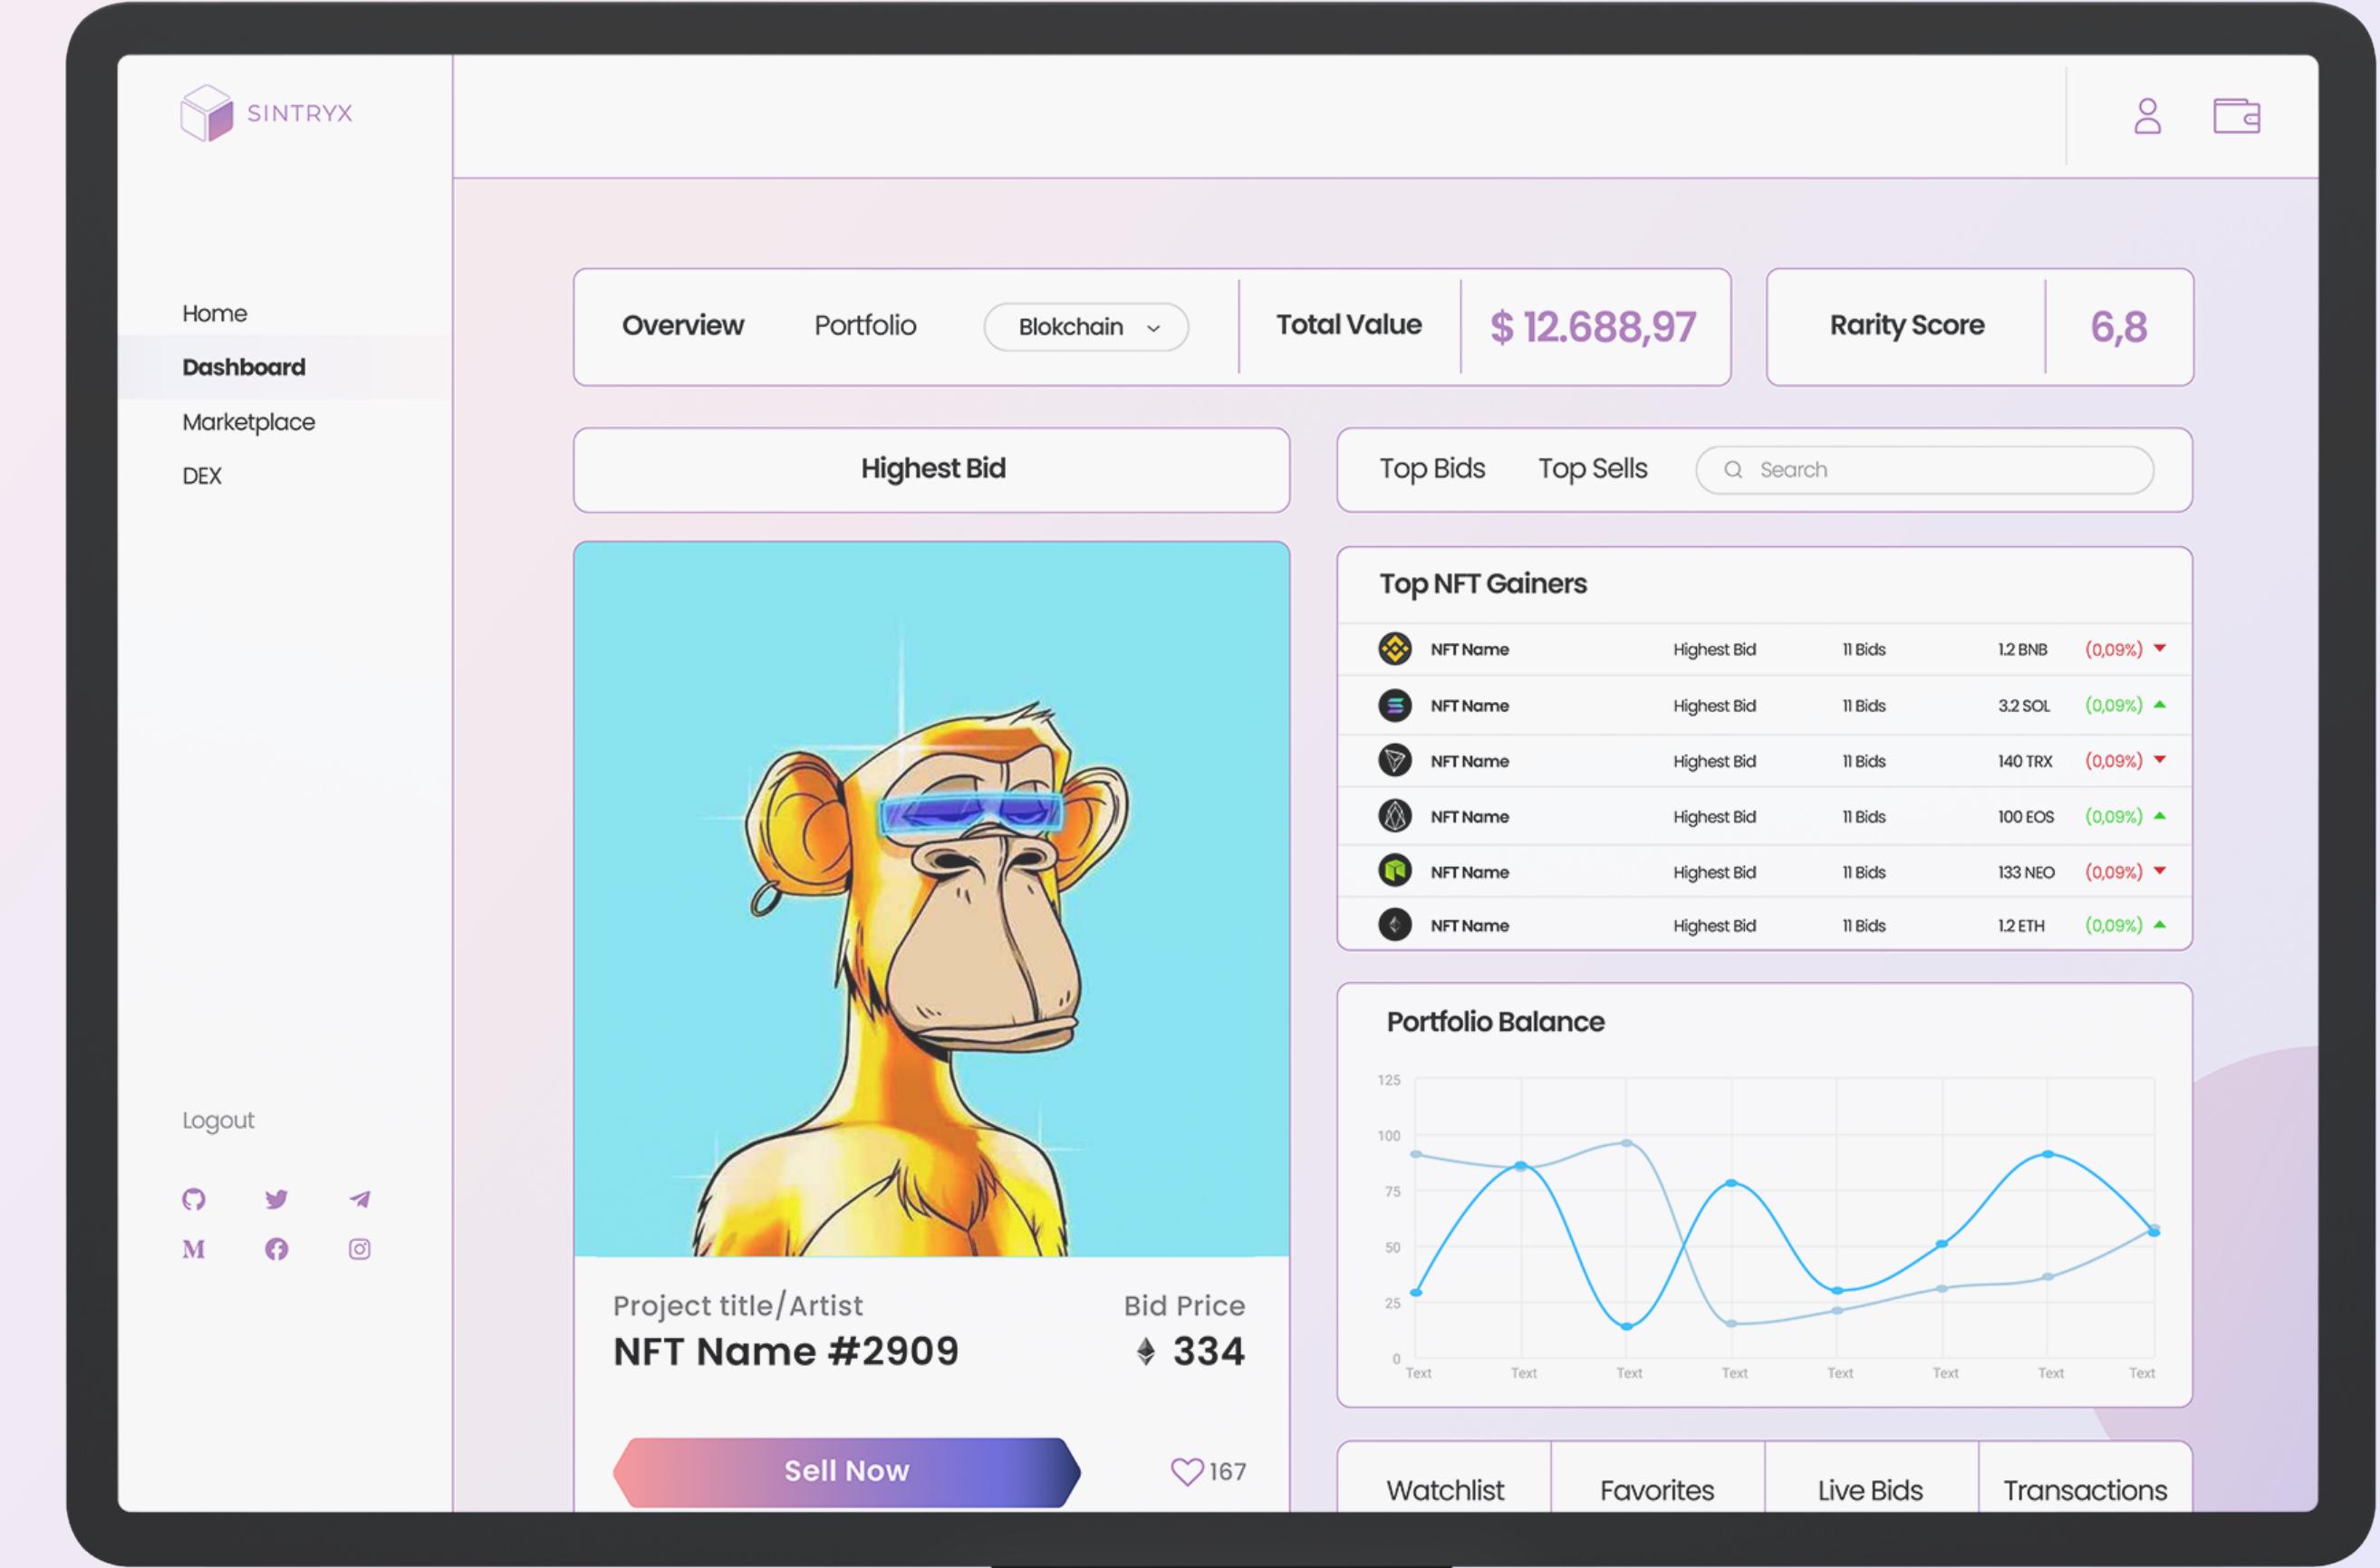

- Vision blockchain = equal opportunity
- High valued objects are segmenting crypto space

- Easy to click and understand overview
- NFTs
- Venture Capital Funds (SME)
- Real Estate participation

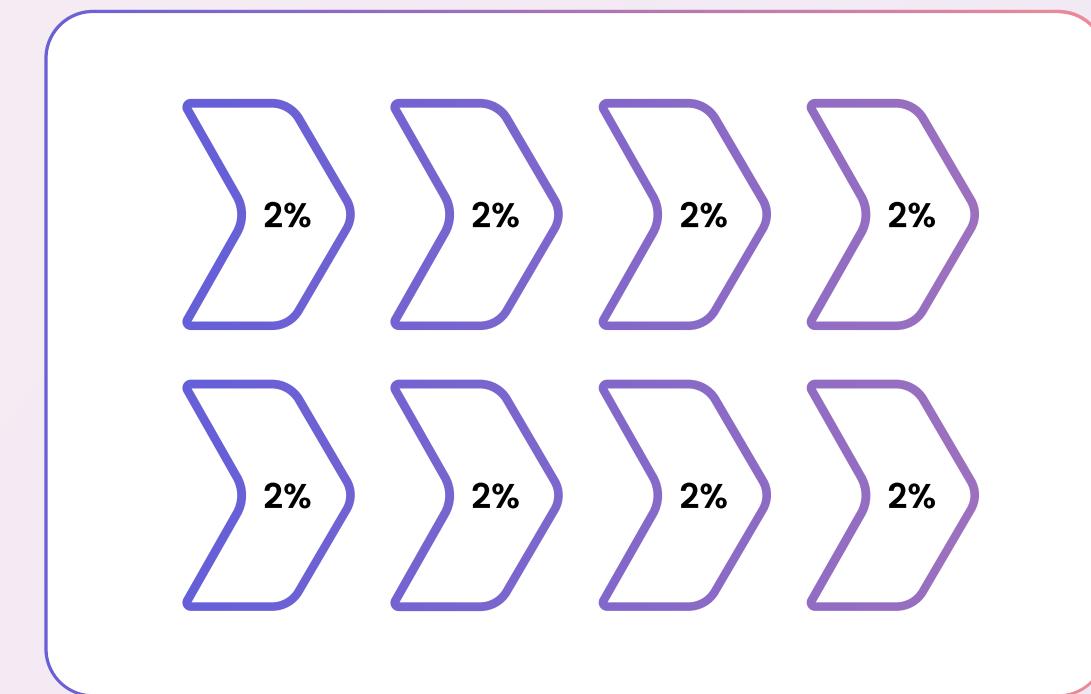

- Aggregated NFT Marketplace
- Investment Intelligence
- Multichain
- Buy / Sell / Mint

The screenshot displays the SINTRYX Marketplace dashboard. On the left, a sidebar includes links for Home, Dashboard (which is selected), Marketplace, DEX, Logout, and social sharing icons (Twitter, Facebook, LinkedIn). The main content area features a top navigation bar with Overview, Portfolio, Blockchain (dropdown), Total Value (\$ 12,688,97), and Rarity Score (6,8). Below this is a section titled "Highest Bid" showing an NFT image of a monkey wearing sunglasses, with details: Project title/Artist NFT Name #2909, Bid Price 334, and a "Sell Now" button. To the right are sections for "Top NFT Gainers" (listing six items with icons like BNB, SOL, TRX, EOS, NEO, and ETH) and "Portfolio Balance" (a line chart showing fluctuating values over time). At the bottom are tabs for Watchlist, Favorites, Live Bids, and Transactions.

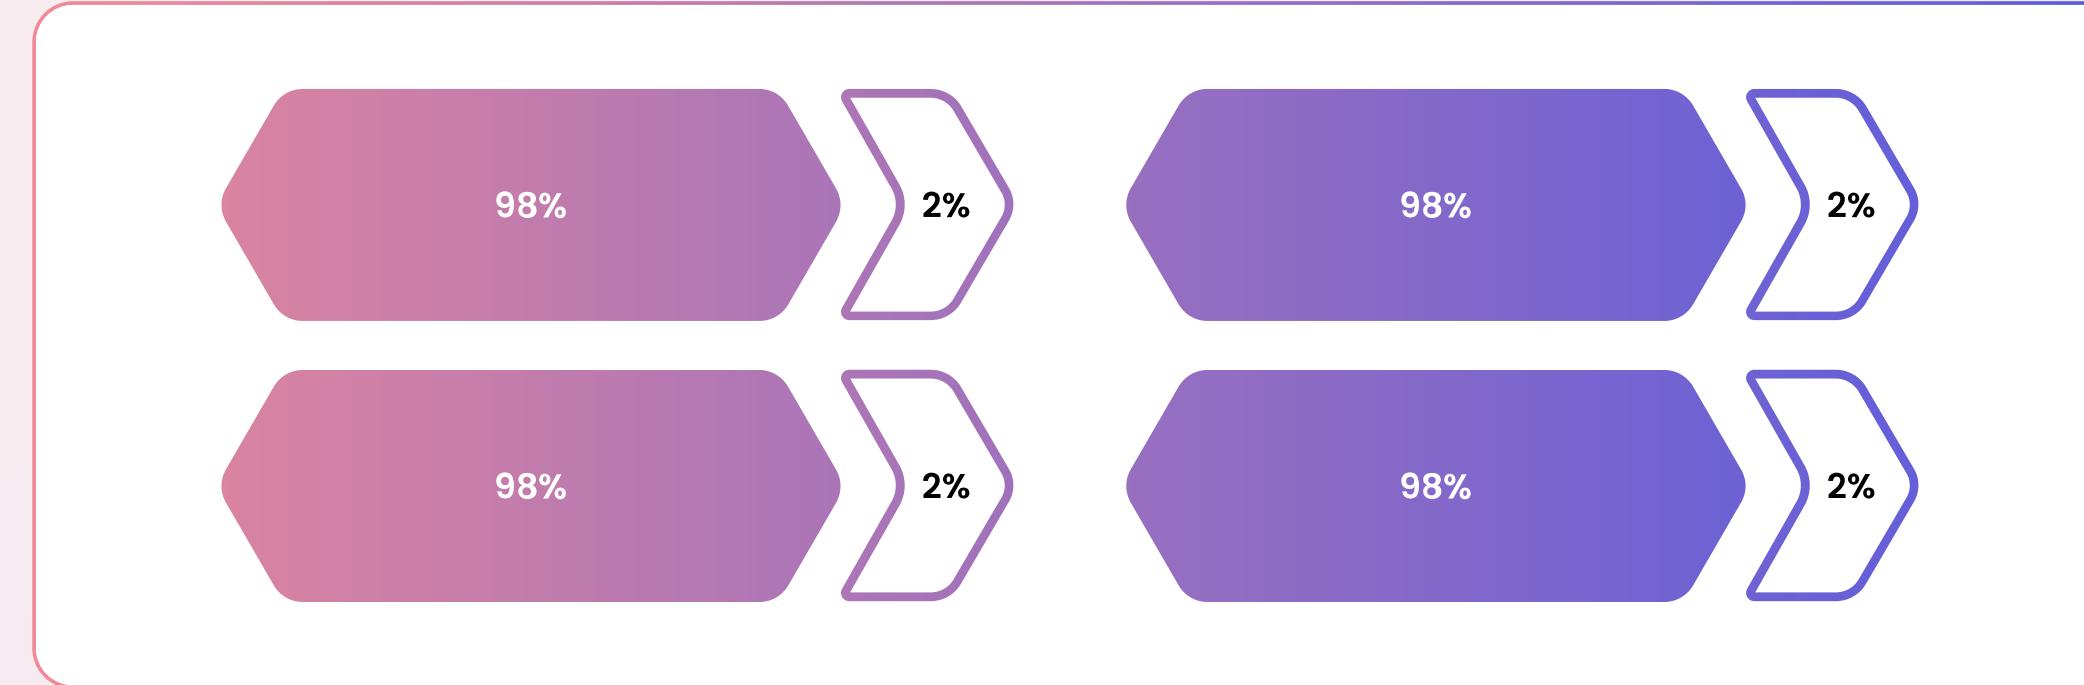

## Pre-Voting

Threshold

## Token Allocation

Funding

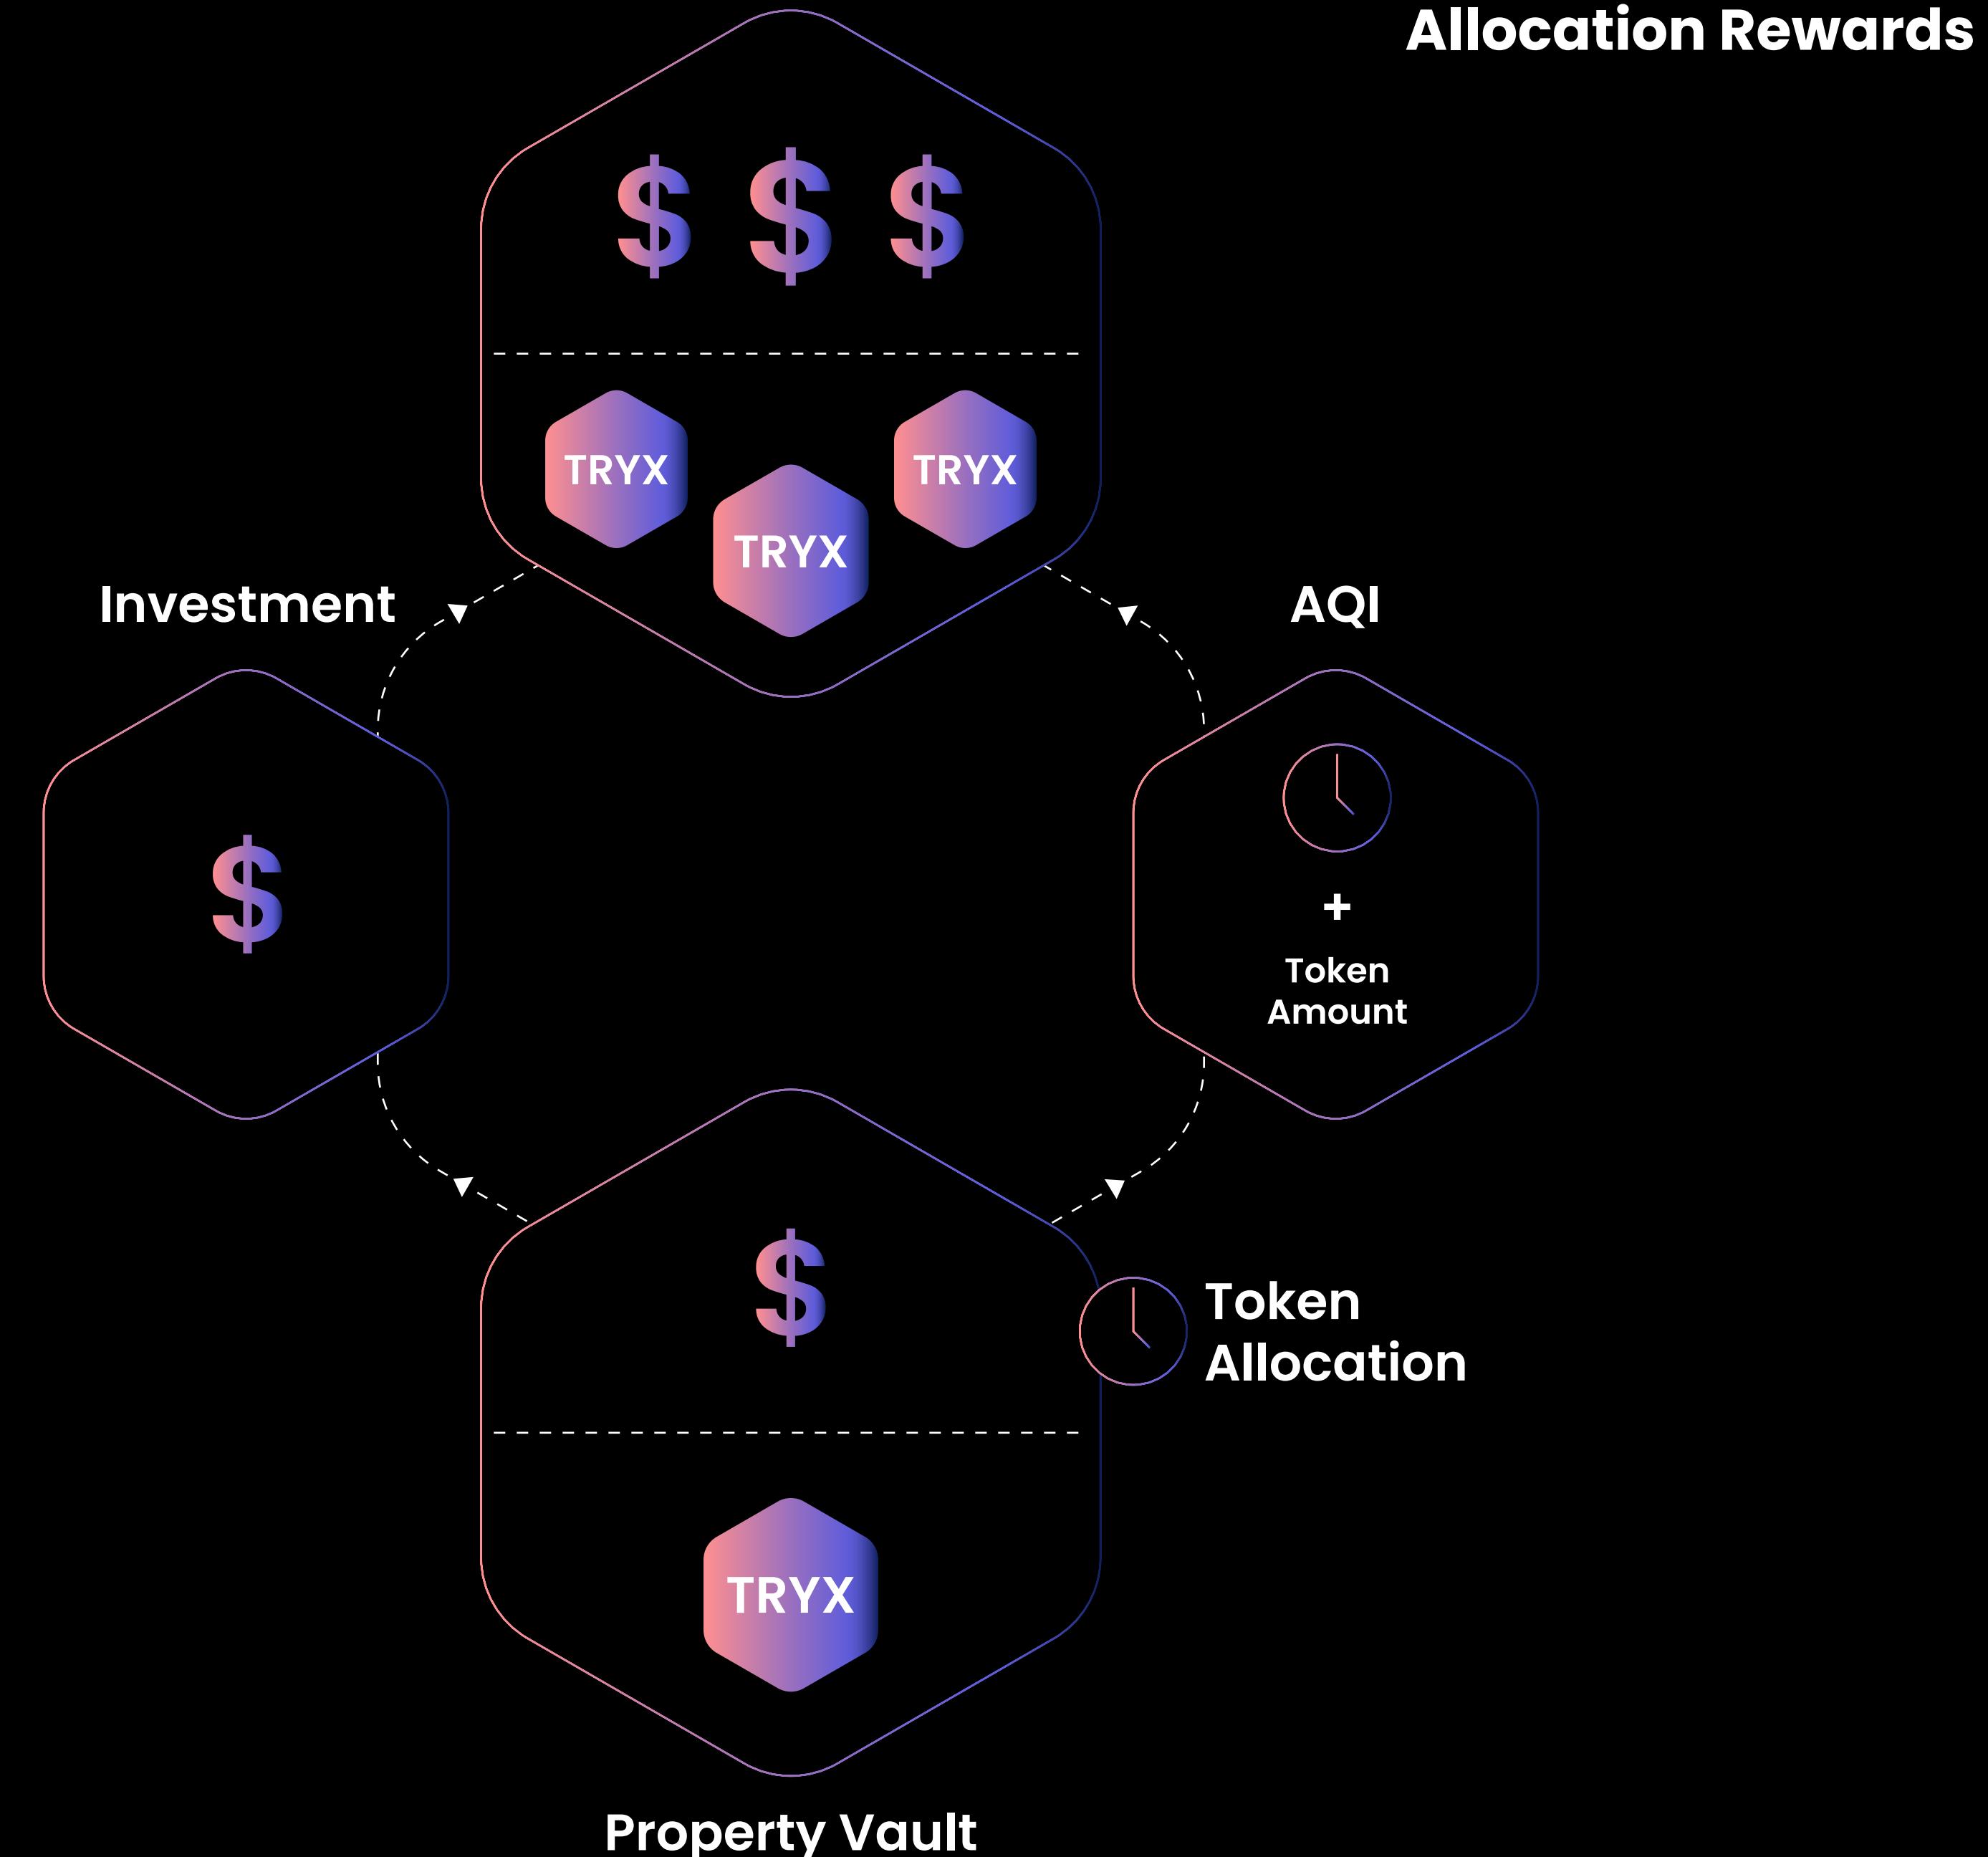

- Sentiment based market valuation
- Protecting retail traders
- Adding value to objects

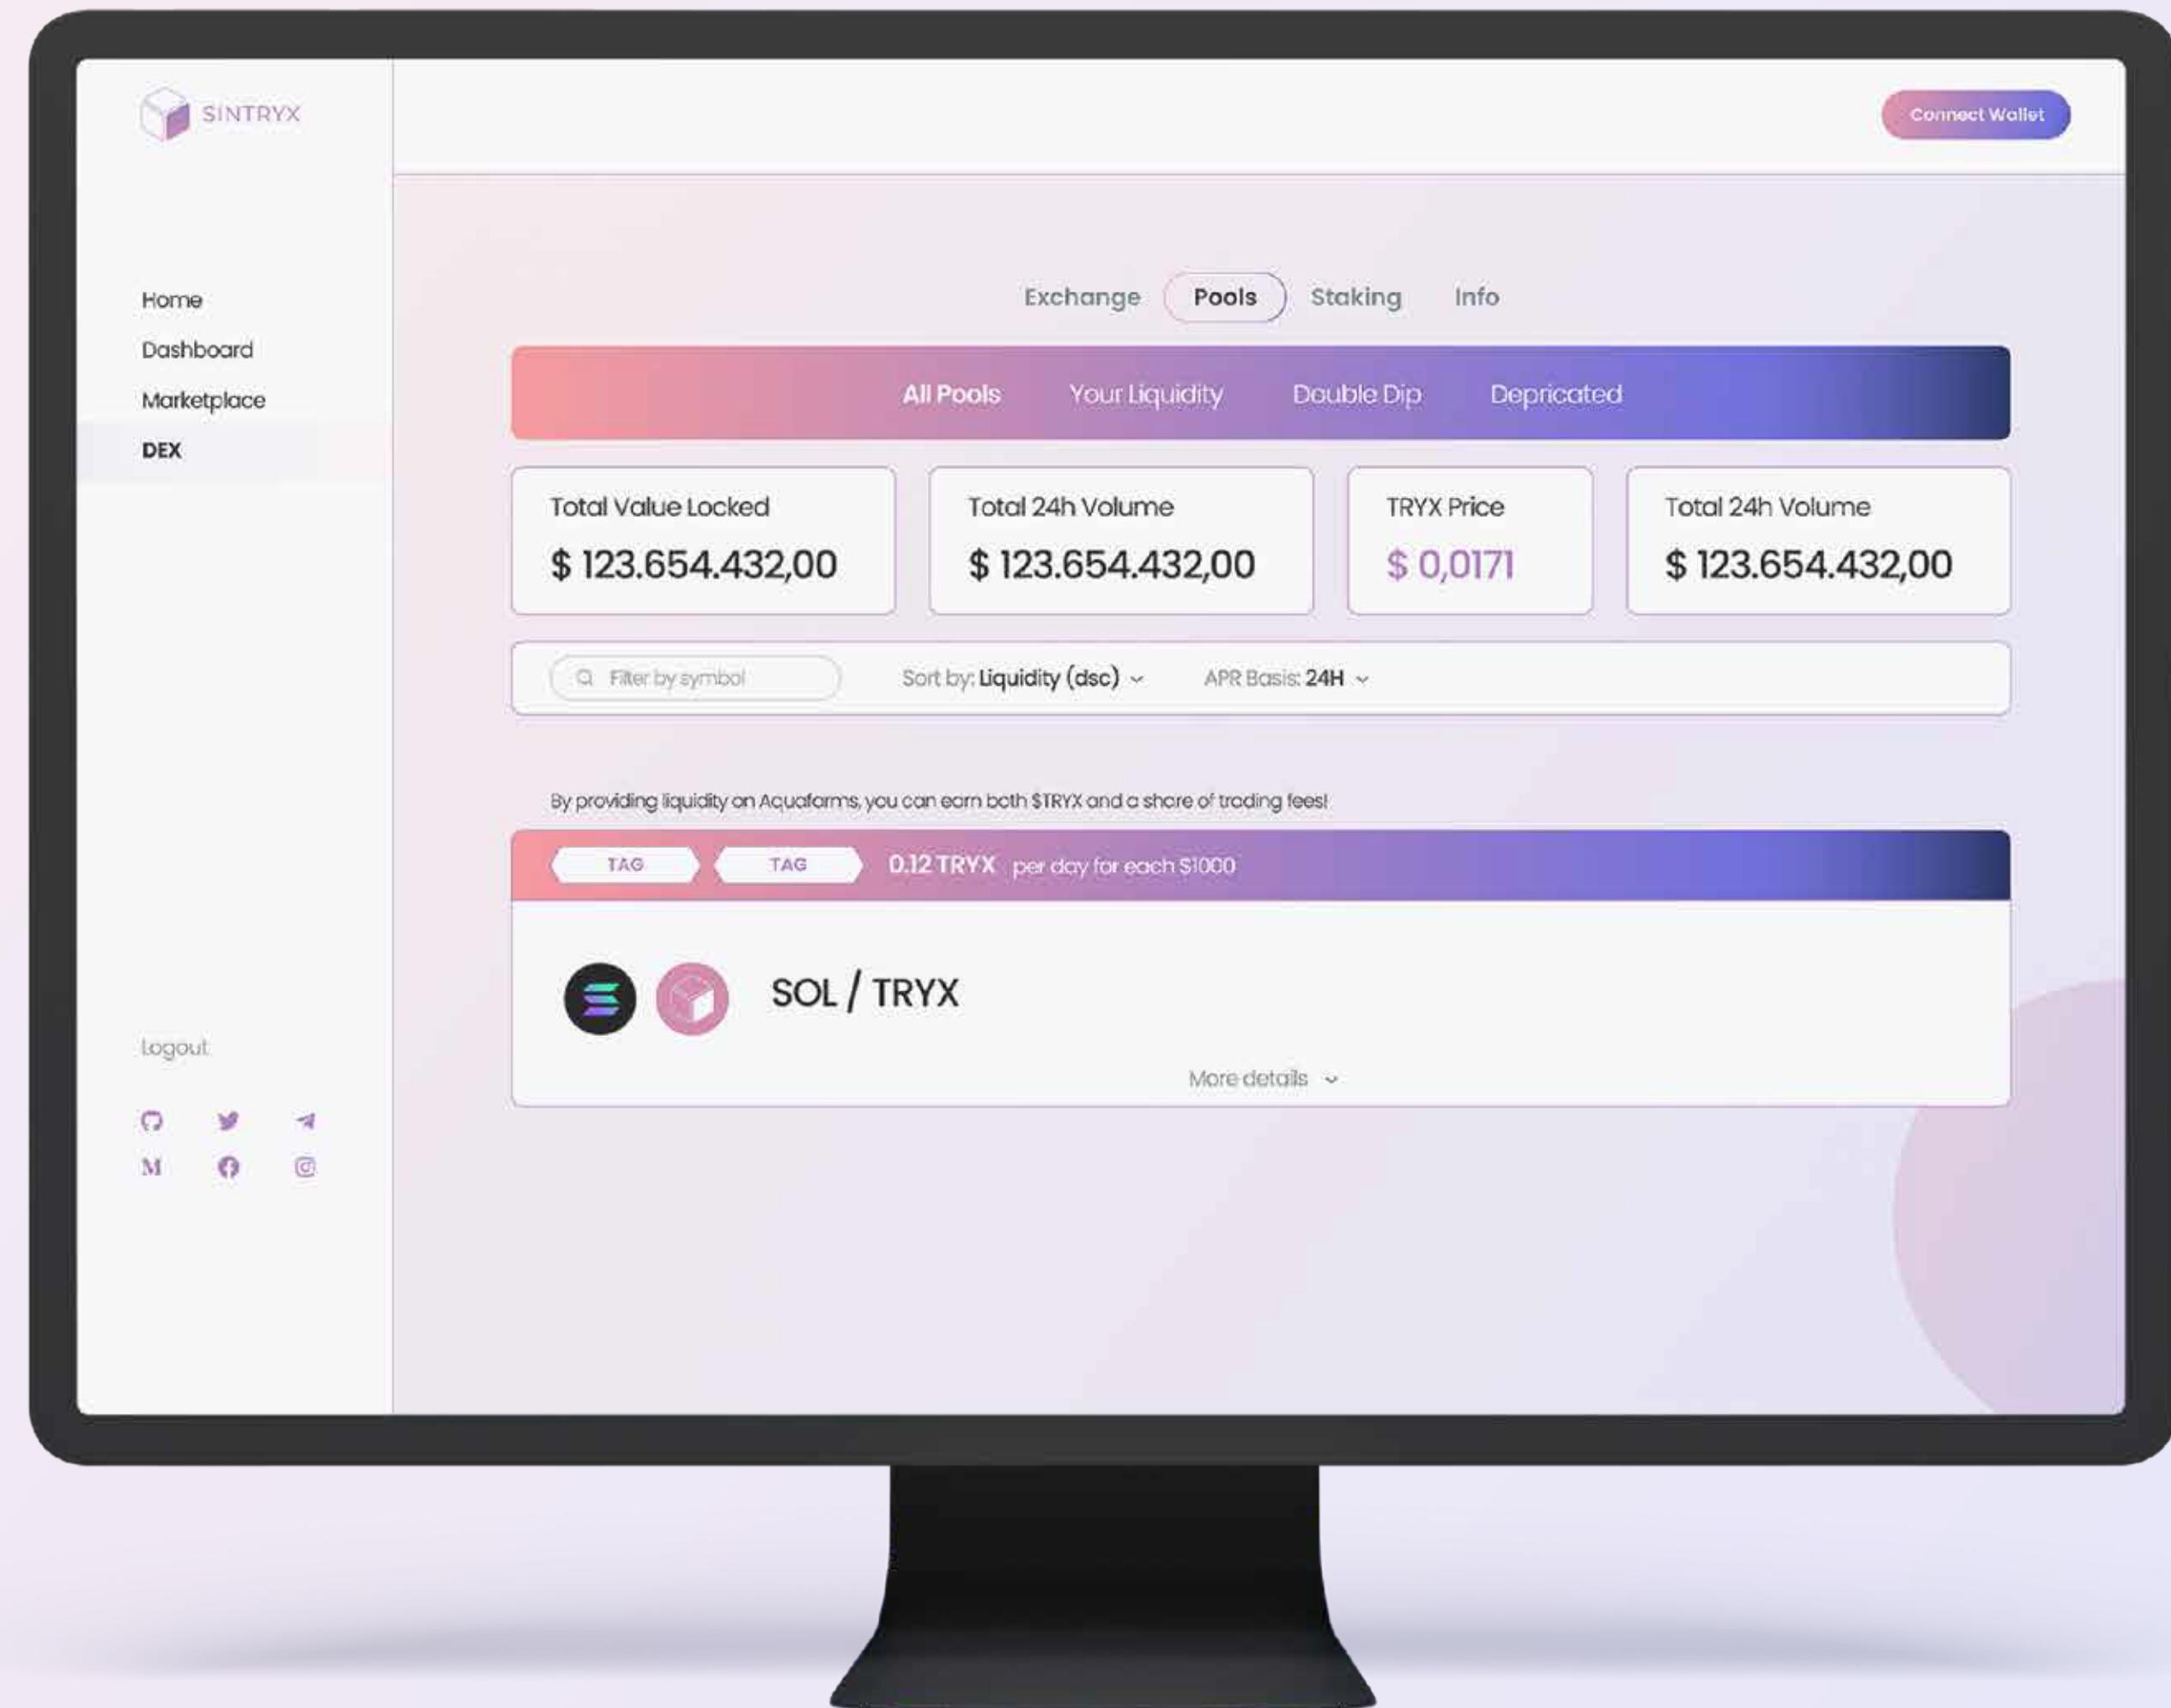

98%

2%

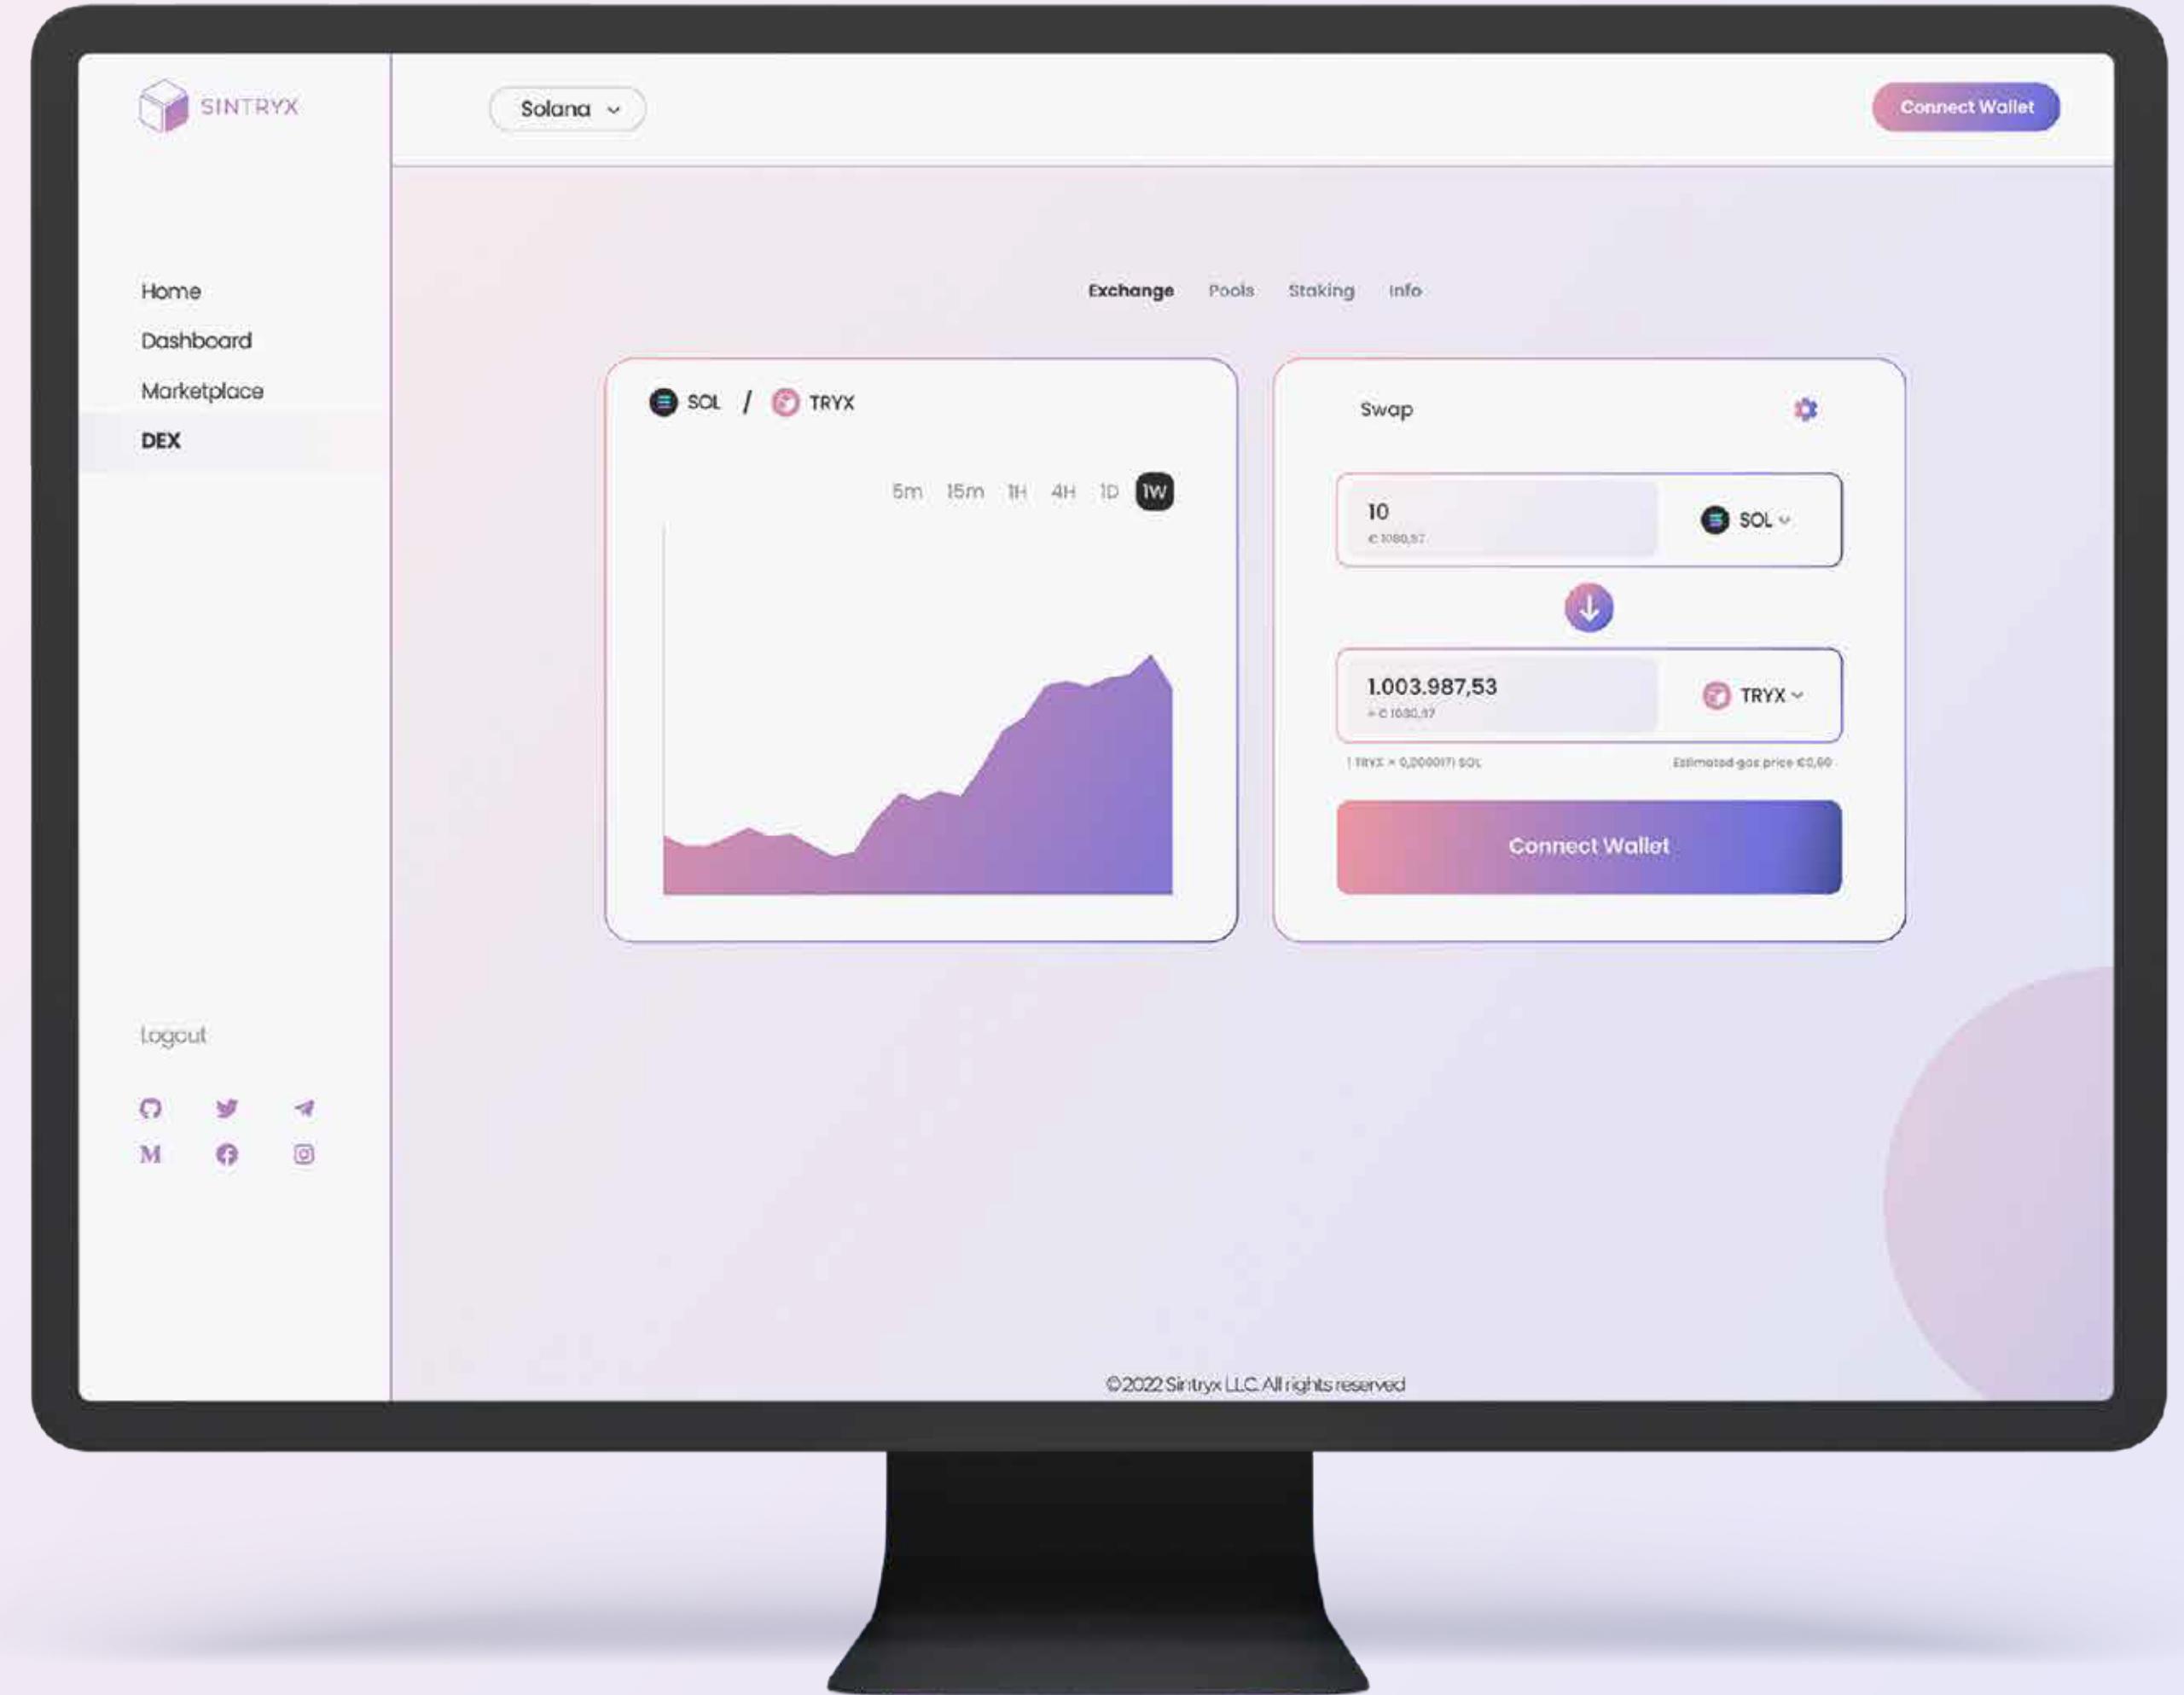

- Solana based **\$TRYX** token
- Rewards through time
- Rewards on amount
- Lowers profit fees

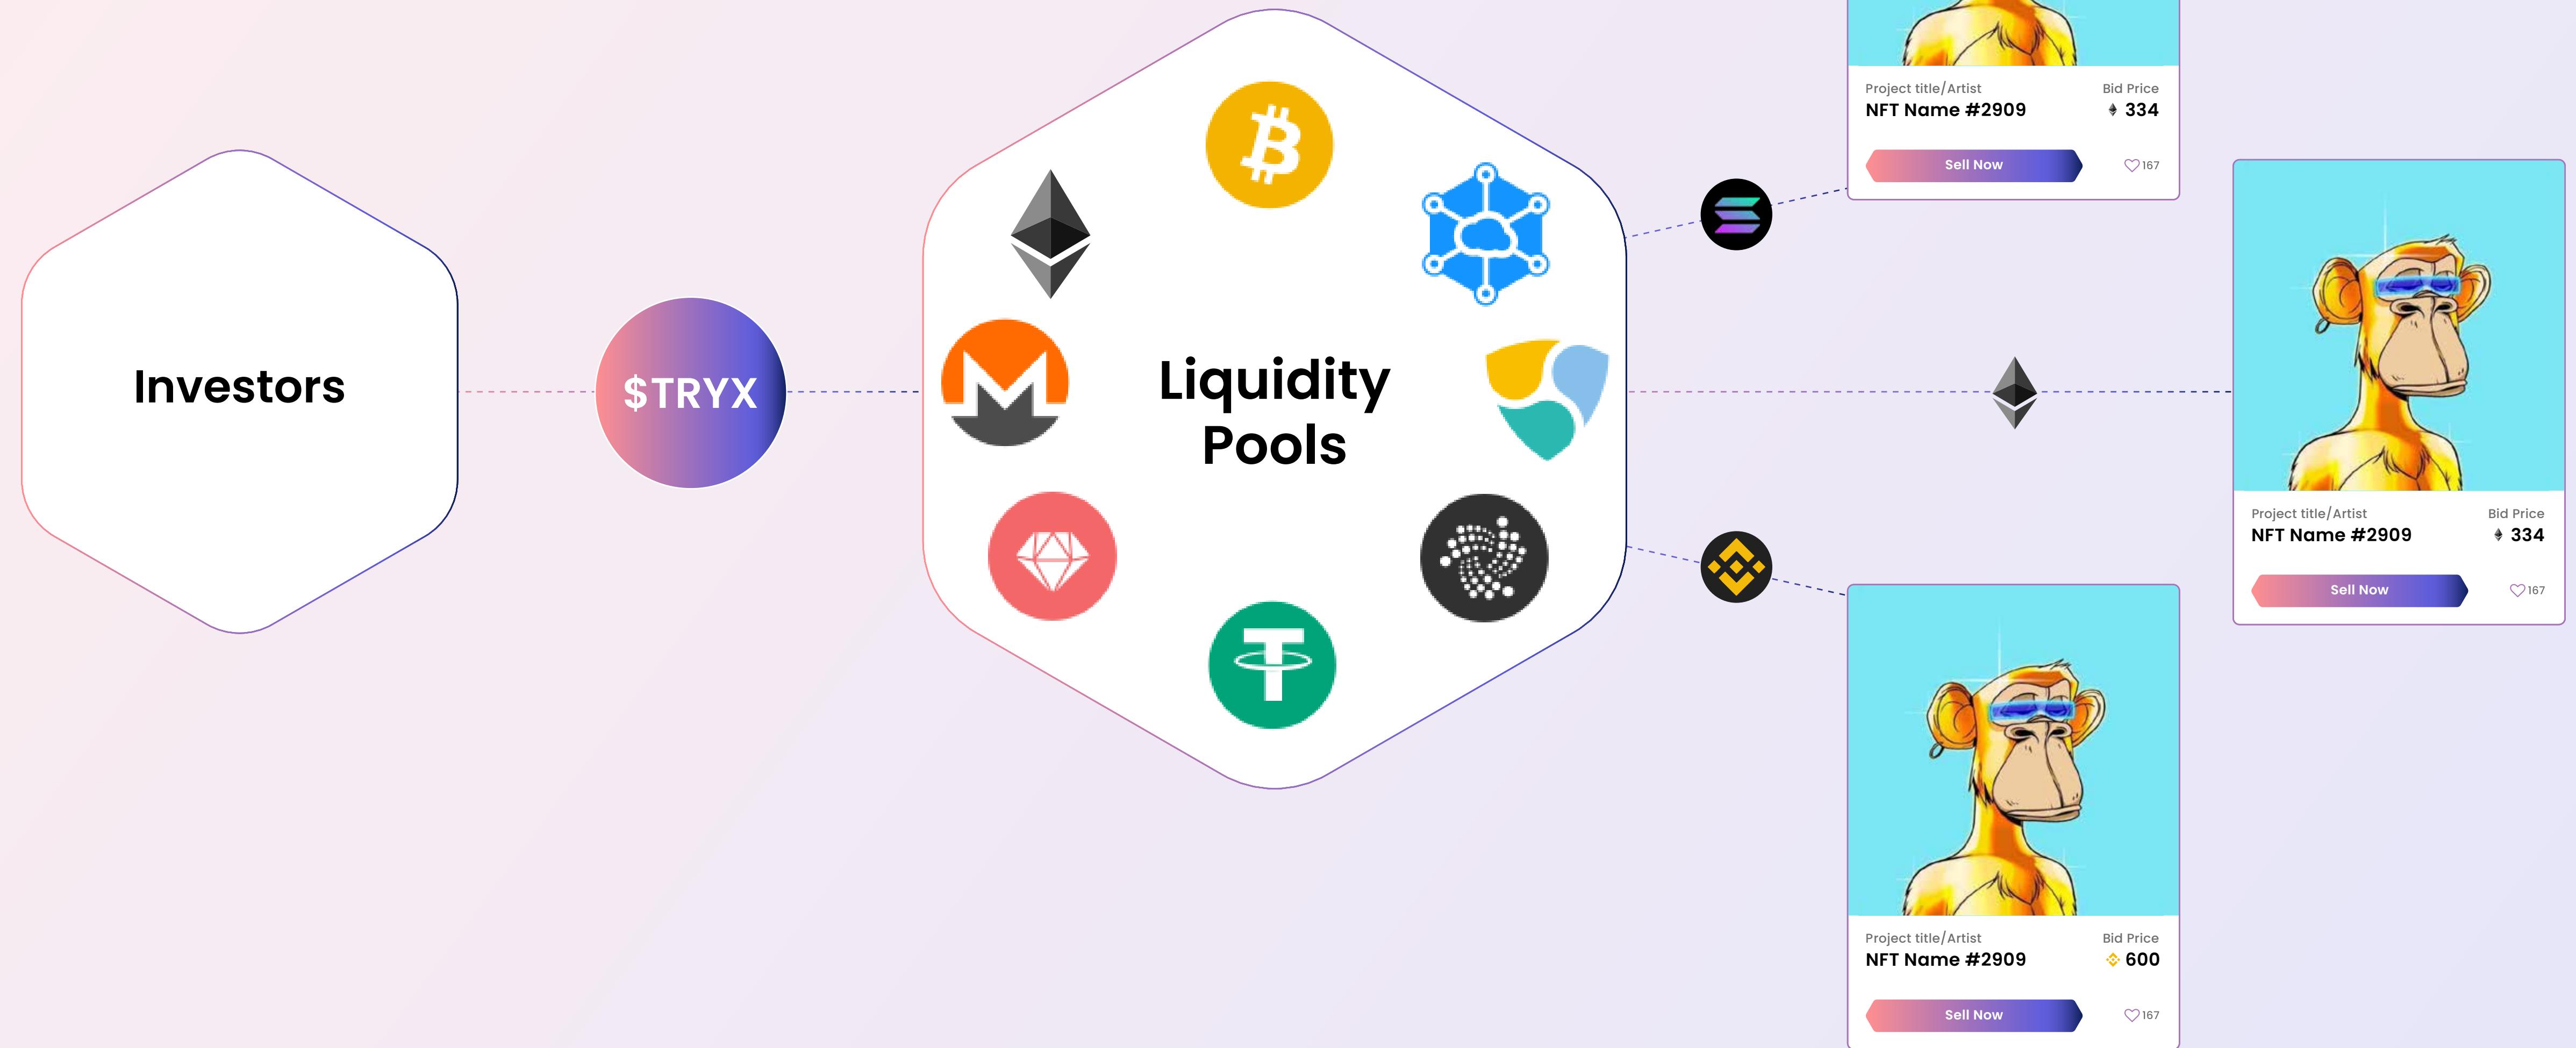

- Solana Blockchain
- LP Tokens

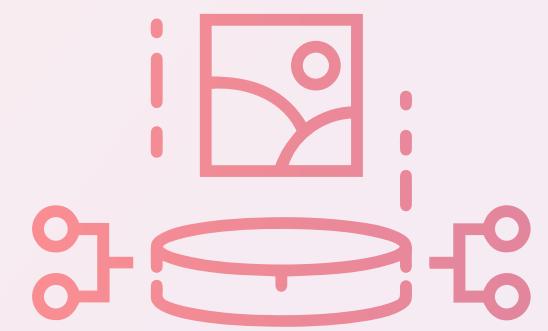

- Solana-based pair swaps
- Rewards in **\$TRYX** Token

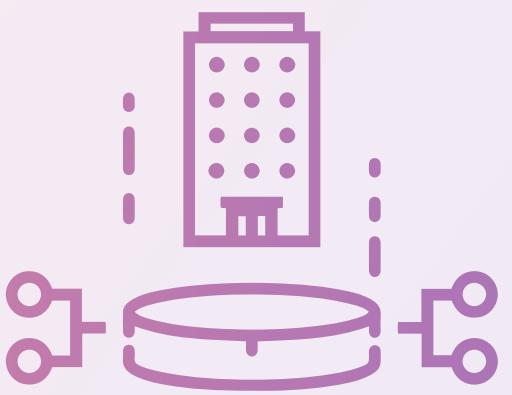

# Fractionalised NFT Investments

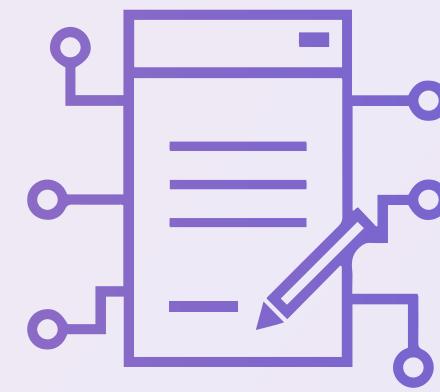

**\$TRYX to invest**

Invest in almost all Digital assets

**\$TRYX as collateral**

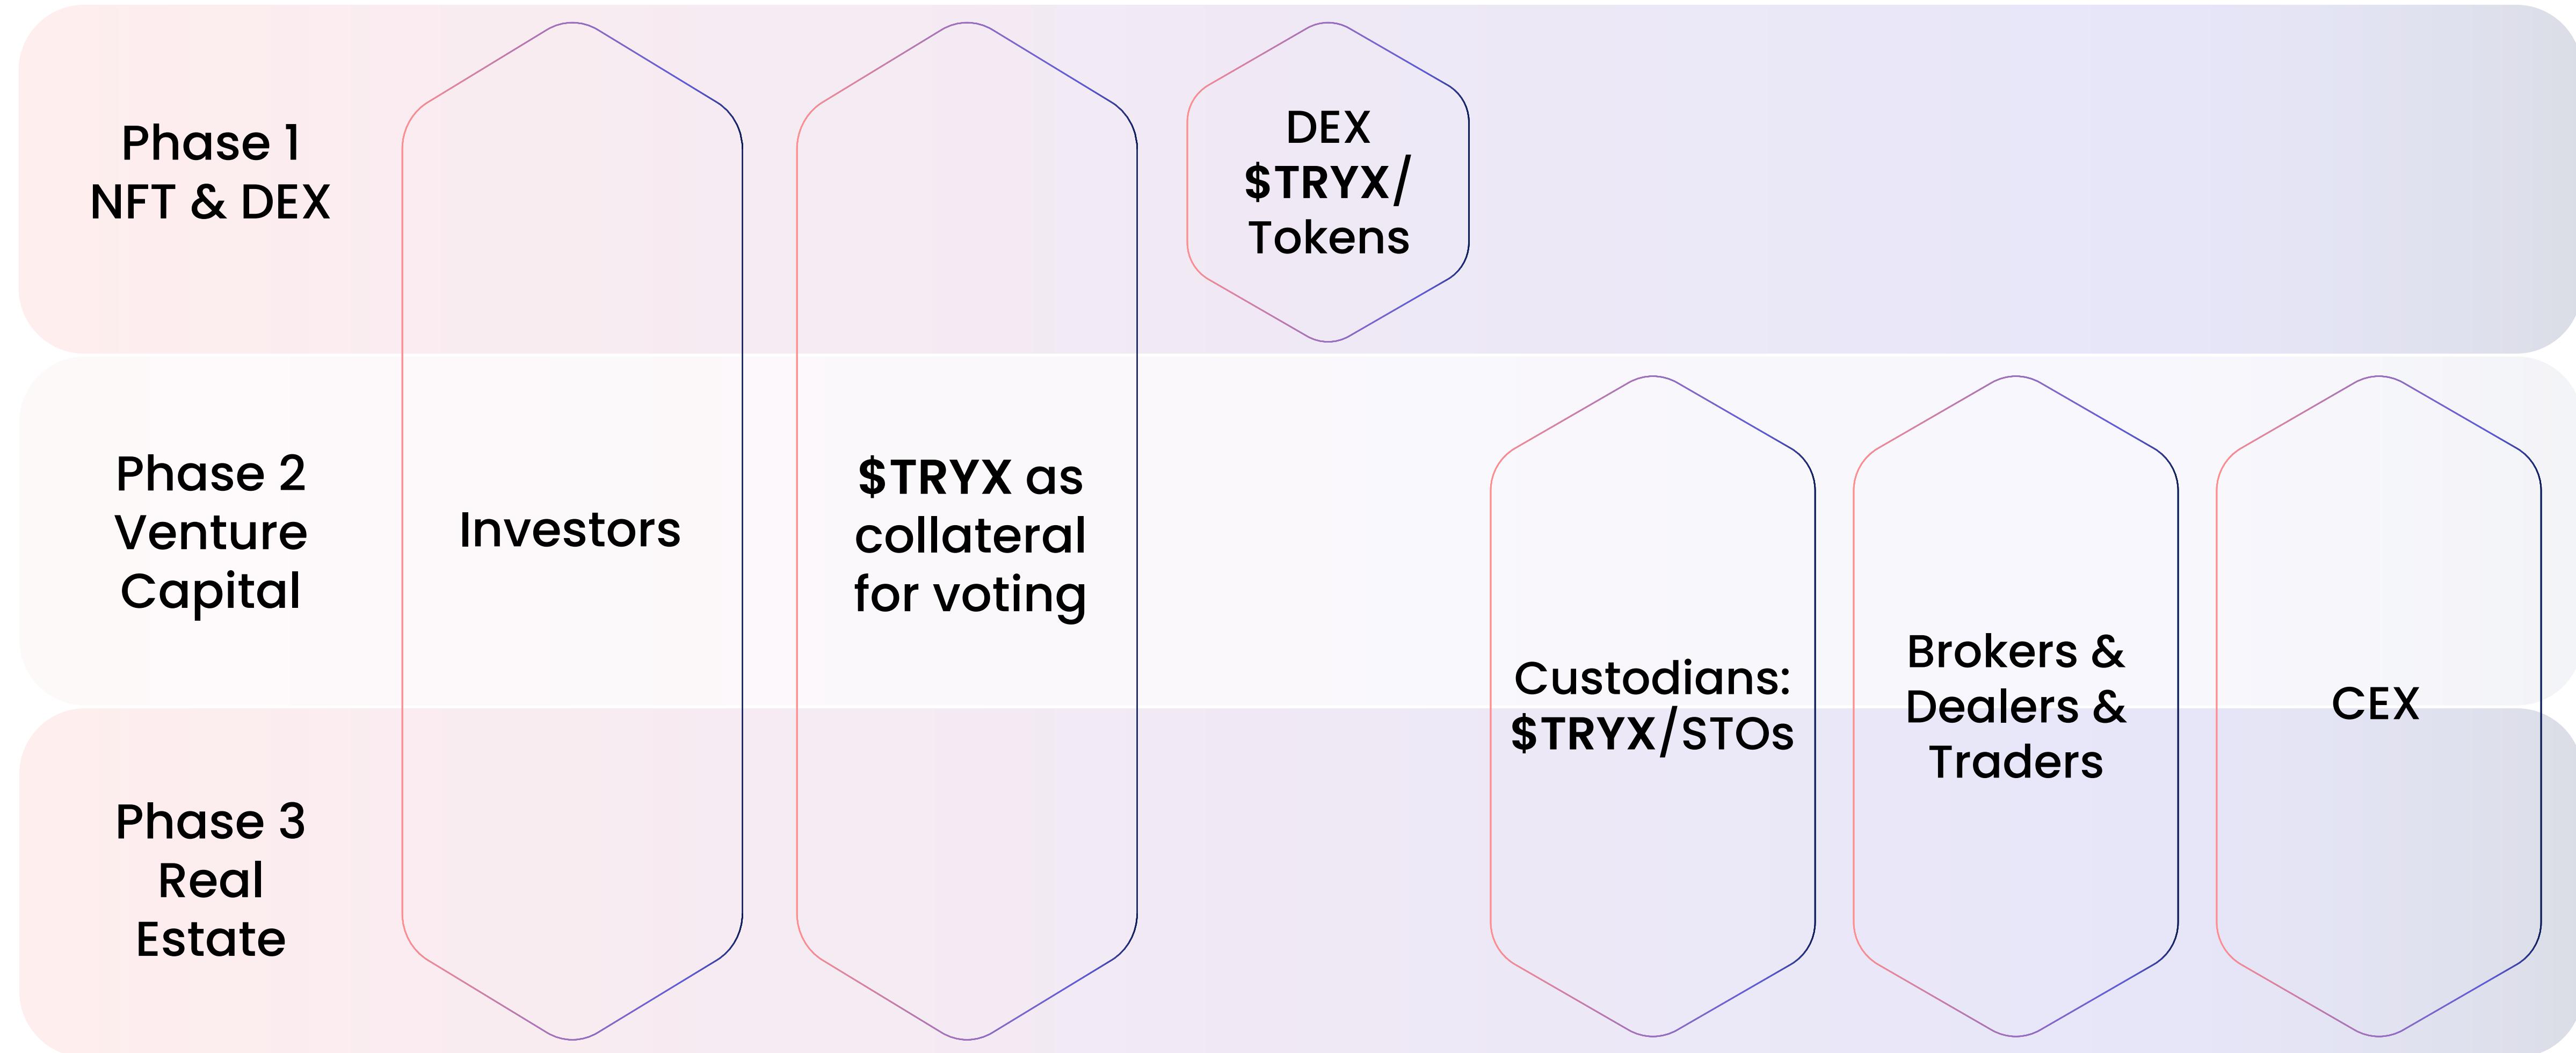

Invest in Real World objects by staking \$TRYX > 5%

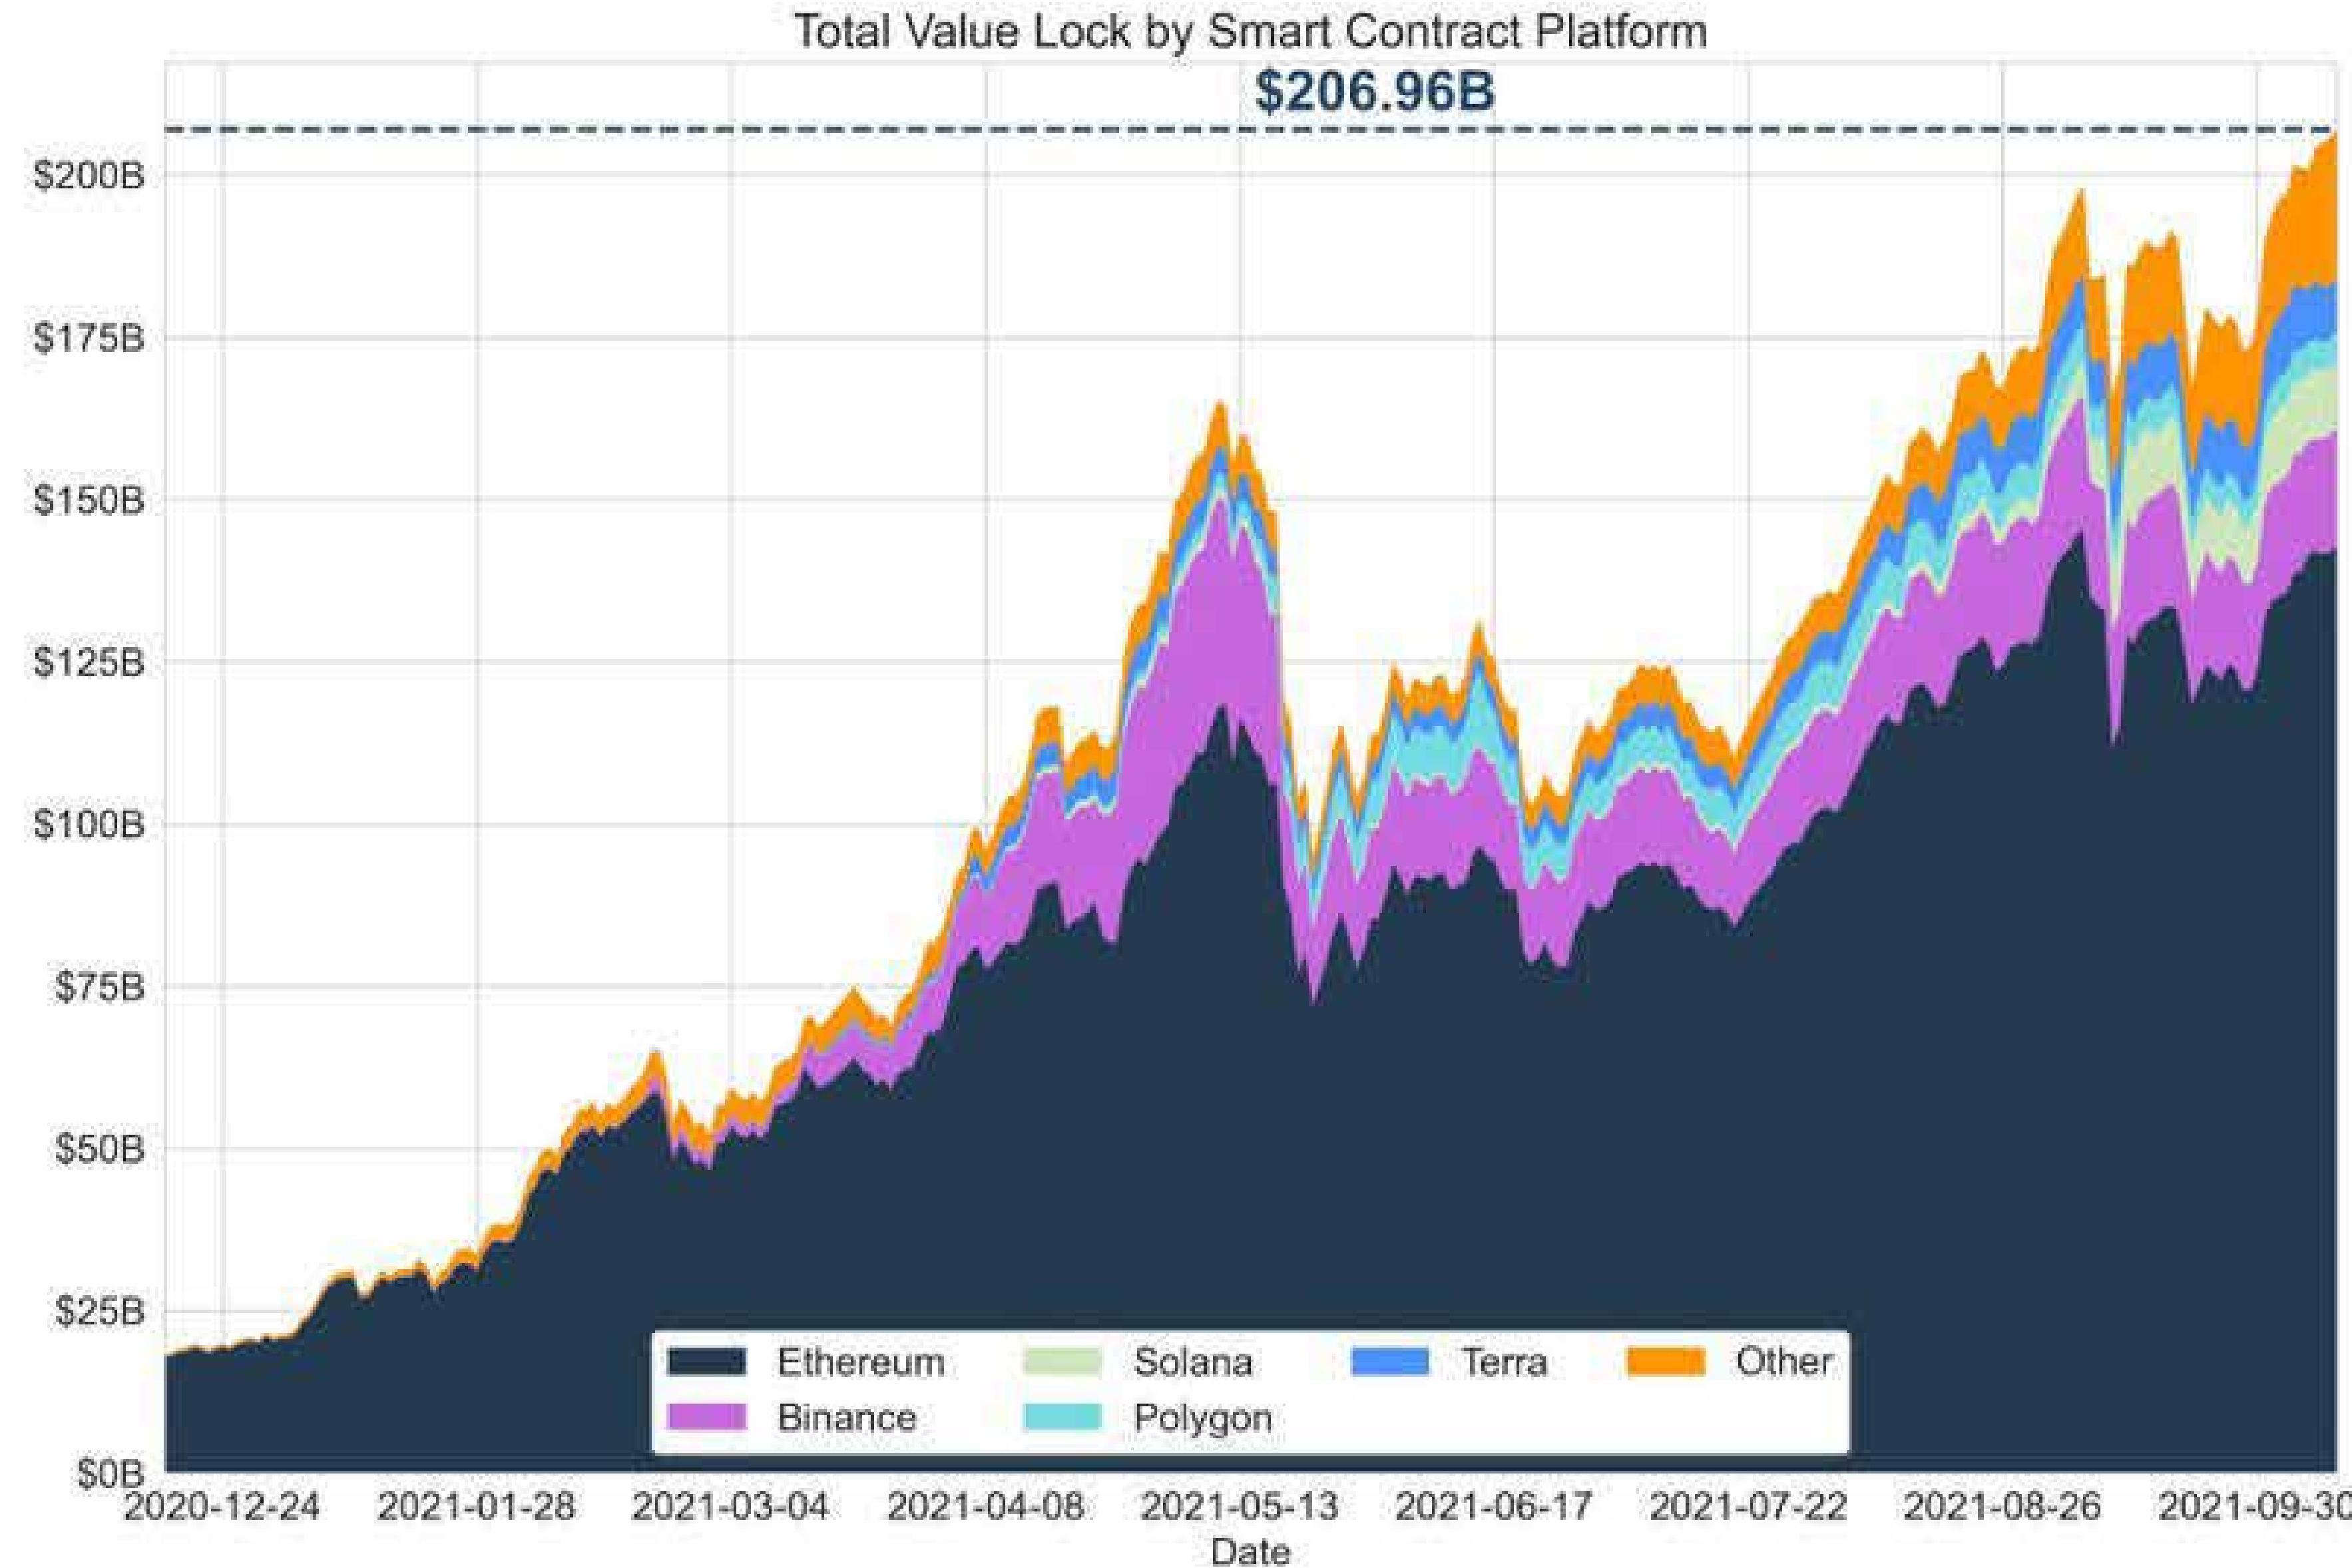

**\$TRYX to vote**

Collateralize \$TRYX as vote to be eligible for investing
